- If inhaled: Call a poison control center or doctor immediately for treatment advice.

- If swallowed: Call a poison control center or doctor immediately. Do not give anything by mouth.

- If on skin: Wash thoroughly with soap and water. Remove contaminated clothing immediately. Wash the outside of gloves before cleaning/maintaining PPE. If no such instructions for washables exists, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing and any other contaminated materials. Wash exposed skin with soap and water or use a neutralizing agent. Wash contaminated clothing before storing or cleaning. Do not use soap containing lanolin. Do not reuse any contaminated personal protective equipment or clothing.

- If in eyes: Rinse slowly and gently with water for 15 min. If irritation persists, call a poison control center or doctor. May cause serious eye damage. Wash eye open and rinse slowly and gently with water for 15 min. If irritation persists, call a poison control center or doctor. A persistent burning sensation may occur. If irritation persists, call a poison control center or doctor.

- If on clothing or skin: Wash thoroughly with soap and water. Remove contaminated clothing immediately. Wash the outside of gloves before cleaning/maintaining PPE. If no such instructions for washables exists, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing and any other contaminated materials. Wash exposed skin with soap and water or use a neutralizing agent. Wash contaminated clothing before storing or cleaning. Do not use soap containing lanolin. Do not reuse any contaminated personal protective equipment or clothing.

- If on floors or surfaces: Rinse container (or equivalent) promptly after emptying. Then offer for recycling or dispose of in a sewage treatment plant. Keep the product container or label with you when calling a poison control center or doctor. Store properly. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment or PPE. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing and any other contaminated materials. Wash exposed skin with soap and water or use a neutralizing agent. Wash contaminated clothing before storing or cleaning. Do not use soap containing lanolin. Do not reuse any contaminated personal protective equipment or clothing.

**Storage and Disposal**

- Store in a cool, dry place. Store in accordance with local, state and national authorities.

- Pesticide storage: Store in a secure area inaccessible to children. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment or PPE.

- Disposal instructions: Rinse thoroughly and thoroughly. Do not contaminate water, food or feed by storage, disposal or cleaning of equipment or PPE. Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing and any other contaminated materials. Wash exposed skin with soap and water or use a neutralizing agent. Wash contaminated clothing before storing or cleaning. Do not use soap containing lanolin. Do not reuse any contaminated personal protective equipment or clothing.

**DIRECTIONS FOR USE**

This is a solution of formalin to be used in a manner consistent with its labeling.

**NOTICE TO PHYSICIAN**

This product is recommended for use only in the formulation of end-use industrial systems intended for Statements on the label include claims against disease agents while in the final form or of the final form when used on any other label. This product is not recommended for use in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**LABELING REQUIREMENTS**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**POTENTIAL EXPOSURE**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**COMPANY AND TRADEMARK INFORMATION**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**REFERENCES**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**LEGAL INFORMATION**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.

**PRODUCT IDENTIFICATION**

This product is recommended for use only in the formulation of end-use industrial systems intended for use in end-use industrial systems intended for residential use.
IN CONTAINER PRESERVATIVE
This product is recommended as an in-container preservative for the control of bacteria and fungi in industrial and household consumer products, such as air fresheners, automotive products, fabric softeners, hand cleaners, polishes for floors and furniture, shoe polishes, metal cleaning and polishing, spray starch, waxes and automotive polishes, hand and automatic dish detergents, liquid laundry detergents and car washers, household cleaners, industrial cleaners, liquid hand soaps, oil and grease removers, carpet cleaners and spot removers, wood floor cleaners, raw materials for cleaning products, surfactants and silicone emulsions.

INDUSTRIAL RECYCLING WATER COOLING TOWERS
This product is recommended for the control of bacteria, algae and fungi in industrial recirculating water cooling towers when added to the tower basin, distributor box or some other point to insure uniform mixing.

AIR WASHER SYSTEMS
This product is recommended for the control of bacteria, algae and fungi which cause fouling in industrial air washer systems.

INDUSTRIAL RECYCLING CLOSED LOOP WATER COOLING SYSTEMS
This product is recommended for the control of bacteria, algae and fungi in industrial recirculating closed loop water cooling systems when added to the reservoir, recirculating line or some other point to insure uniform mixing.

DISPERSED PIGMENT PRESERVATION
This product is recommended for the control of bacteria and fungi in the manufacture and storage of dispersed pigments such as kaolin clay, montmorillonite clay, titanium dioxide, calcium carbonate, calcium sulfate, barium sulfate, magnesium silicate, and kaolin clay used in paint and paper productions.

WOOD AND WOOD PRODUCTS
This product is recommended for the protection of wood and wood products such as landscape timbers, fences, posts, terrestrial-use pilings, crossties, decks and similar exterior surfaces from mold and mildew.

PAPER MILLS
This product is recommended for the control of bacterial and fungal slime in the production of paper.

OIL FIELD INJECTION WATERS
This product is recommended for the control of slime-forming and sulfate-reducing bacteria in oil and gas field water systems, including enhanced recovery injection fluids, drilling, fracturing and completion fluids. This product may be used for terrestrial and offshore oil drilling muds and packer fluids.
