This product is designed specifically as a general, non-acid, ready-to-use, non-abrasive cleaner and disinfectant for use in homes, hospitals, nursing homes, patient rooms, shower rooms, locker rooms, public restrooms, schools, transportation terminals, office buildings, manufacturing facilities, lodging establishments, retail businesses, and illicit/mecca/creative facilities where housekeeping is prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, chrome, brass, copper, laminated surfaces, baked enamel surfaces, bathrooms, shower stalls, bathtubs, and cabinets. For plastic and painted surfaces, spot test on an insignificant area before use. May be used in the kitchen on counters, sinks, appliances, and stovetops. A rinse with potable water is required for surfaces in direct contact with food.

Kills: Paracoccidioides brasiliensis (a fungus that causes Paracoccidioidomycosis), which is a fungal infection that can cause serious respiratory illness.

This product is fungicidal against the pathogenic fungus, Trichophyton mentagrophytes (commonly known as athlete's foot fungus), when used with a 10 minute contact time on clean, non-porous, hard surfaces as found in bathrooms, shower stalls, locker rooms, or other areas commonly contacted by bare feet. A rinse with potable water is required for surfaces in direct contact with food.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION KEEP OUT OF REACH OF CHILDREN. Causes moderate eye irritation. Avoid contact with eyes or clothing.

Cautions

CAUTION

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. If swallowed: Call a poison control center or doctor, or go for treatment.

Pesticide Disposal

Dry in a sanitary landfill.

If inhaled: Move person to fresh air. If not breathing, give artificial respiration. If pulse has not returned, begin cardiac compression. Call a poison control center or doctor for further treatment advice.

Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times. Offer for reconditioning, if available. If not available, pour and discard in a sanitary landfill.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FUEL BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE

– Store in a dry place no lower in temperature than 50°F or higher self-agitating.
