FOR DISTRIBUTION AND USE ONLY WITHIN THE STATE OF OREGON
(EAST OF THE CASCADE MOUNTAIN RANGE)

EVEREST® 2.0 HERBICIDE

Active Ingredient
Flucarbazone-sodium,
4,5-Dihydro-3-methoxy-4-methyl-5-oxo-N-
[[2-(trifluoromethoxy)phenyl]sulfonyl]-1H-
1,2,4-triazole-1-carboxamide, sodium salt.......................... 35.0%
Other Ingredients .................................................................................................. 65.0%
Total...................................................................................................................... 100.0%

This formulation contains 3.5 lbs of Flucarbazone-Sodium active ingredient per
gallon (419 g ai/l)

EPA Reg. No. 66330-391               EPA SLN No. OR-110008
011317V001ORSLN

THIS LABEL IS VALID UNTIL DECEMBER 31, 2021 OTHERWISE AMENDED,
WITHDRAWN, CANCELED, OR SUSPENDED.

Use on Perennial Kentucky Bluegrass Grown For Seed Only During the Year of
Establishment

KEEP OUT OF REACH OF CHILDREN

CAUTION

FOR 24-HOUR MEDICAL EMERGENCY ASSISTANCE CALL PROPHARMA:
1-866-303-6952 or +1-651-603-3432.

FOR 24-HOUR CHEMICAL EMERGENCY (Spill, leaks, fire, exposure or
accident) CALL CHEMTREC: 1-800-424-9300 or +1-703-527-3887.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its
labeling. This label and the federal label for this product must be in the possession of
the user at the time of pesticide application. Read the label affixed to the container for
EVEREST® 2.0 HERBICIDE and this Section 24c label before applying. Do not use in
manner inconsistent with applicable directions, restrictions, and precautions provided on
the label affixed to the container for EVEREST 2.0 HERBICIDE and this Section 24c
label. Use of **EVEREST 2.0 HERBICIDE** according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for **EVEREST 2.0 HERBICIDE**.

Read the entire label for **EVEREST 2.0 HERBICIDE** before proceeding with the use directions contained in this supplemental labeling. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label and this supplemental label.

**ENVIRONMENTAL HAZARDS**
Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water when disposing of equipment washwaters or rinsate.
Do not allow sprays to drift onto adjacent desirable plants.

**USE RATES**
Apply **EVEREST 2.0 HERBICIDE** to Kentucky bluegrass grown for seed (only during the year of establishment) for control of wild oats, windgrass, and other grass and broadleaf weeds at a rate of 1.0 fl oz/A, with a non-ionic surfactant at a rate of 0.25% v/v.

**GROUND APPLICATION**
Apply in water using a spray volume of 5 to 10 gallons/acre (or 50 to 100 liters/hectare) at 30 to 50 psi to ensure proper weed coverage. Flat fan nozzles of 80 or 110 degrees are recommended for optimum coverage. Do not use floodjet or controlled droplet application (CDA) equipment. Nozzles may be oriented 45 degrees forward to enhance crop penetration and to give better weed coverage.

**AERIAL APPLICATION**
Apply in water using a minimum spray volume of 3 gal/A (or 30 L/ha). For best results, particularly in dry conditions or where heavy weed infestations exist, use a minimum of 5
gal/A (or 50 L/ha). Use nozzles that provide 200 to 350 micron size droplets for best results and to insure uniform spray coverage. Aerial applications with **EVEREST 2.0 HERBICIDE** should be made with low drift nozzles at a maximum height of 10 feet above the crop and at a maximum pressure of 40 psi. Do not apply aerially when wind speed is greater than 10 mph. Do not allow spray to drift onto adjacent crops, as injury or loss may occur.

Refer to the **SPRAY DRIFT MANAGEMENT** section of the federal label for additional information on how to reduce drift during aerial application.

**ENDANGERED SPECIES PROTECTION**
To avoid adverse effects on endangered dicot plant species, the following measures will be required where endangered plant species occur in the counties listed in the table below:

<table>

</tbody>
</table>

For ground applications, the applicator must:
- Apply when there is sustained wind away from native plant communities, OR
- Use low-pressure nozzles according to manufacturer’s specifications that produce only coarse or very coarse droplets, OR
- Leave a 50 foot untreated buffer between the treatment and native plant communities.

For aerial applications, the applicator must:
- Apply only when there is sustained wind away from native plant communities, OR
- Leave a 350 foot untreated buffer between the treatment and native plant communities.

**RESTRICTIONS/PRECAUTIONS**
Do not apply more than 1.0 fl oz/A of **EVEREST 2.0 HERBICIDE** per year.

Do not make more than one postemergence application of **EVEREST 2.0 HERBICIDE** per year.

Do not graze livestock or harvest forage from treated Kentucky bluegrass seed fields within 1 year (365 days) of application.

For use under this SLN label do not apply **EVEREST 2.0 HERBICIDE** through any type of irrigation system.

Do not use **EVEREST 2.0 HERBICIDE** in annual production systems of Kentucky bluegrass grown for seed.

Do not apply **EVEREST 2.0 HERBICIDE** within 1 year (365 days) of harvesting Kentucky bluegrass seed.
ARYSTA LIFESCIENCE NORTH AMERICA, LLC’S WARRANTY DISCLAIMER FOR USE OF EVEREST 2.0 HERBICIDE ON KENTUCKY BLUEGRASS GROWN FOR SEED

EVEREST 2.0 HERBICIDE when used on Kentucky bluegrass grown for seed may lead to crop injury, loss, or damage. Arysta LifeScience North America, LLC recommends that the user and/or grower test EVEREST 2.0 HERBICIDE in order to determine its suitability for such intended use. Arysta LifeScience North America, LLC makes EVEREST 2.0 HERBICIDE available to the user and/or grower solely to the extent the benefit and utility, in the sole opinion of the user and/or grower, outweigh the extent of potential injury associated with the use of this product. The decision to use or not to use EVEREST 2.0 HERBICIDE must be made by each individual EVEREST 2.0 HERBICIDE user and/or grower on the basis of possible crop injury from EVEREST 2.0 HERBICIDE, the severity of weed infestation, the cost of alternative weed controls, and other factors. Arysta LifeScience North America, LLC intends that because of the risk of crop damage that all such use is at the user’s and/or grower’s risk. Arysta LifeScience North America, LLC makes no warranty, express or implied, with respect to the suitability of EVEREST 2.0 HERBICIDE for use on Kentucky bluegrass grown for seed.
