DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PRODUCT DESCRIPTION: This pac is a disinfectant that is part of an advanced pool care system that uses the FROG Leap Anti-Bac Mineral Pac (EPA Reg. No. 53735-11) with low levels of chlorine to destroy bacteria continuously for weeks under normal conditions in a stabilized pool. The conveniently disposable pac lets you control the rate of chlorine delivery to meet changing conditions in your pool, by simply adjusting the control dial on the chlorine delivery system. You never have to touch the chlorinating tablets.

USE DIRECTIONS:
1. Adjust pH level to 7.2 – 7.8.
2. Bring Free Available Chlorine (FAC) residual to 1.0 ppm using a chlorine shock. Follow Manufacturer’s Label Directions.
3. Stabilize the pool with cyanuric acid stabilizer. Follow Manufacturer’s Label Directions.
4. To install pac: Take FROG Leap Infuzer cap off. Remove pac colored caps. Hold pac so the open end faces down. Insert into FROG Leap Anti-Bac Mineral Pac. The end of the pac must align with the key located inside the FROG Leap Infuzer at the bottom. DO NOT FORCE. Replace Infuzer cap and set the control dial per the size and pump run time of your pool according to the chart in the manual included with the FROG Leap Anti-Bac Mineral Pac. Monitor chlorine level daily for the first week to determine correct dial setting. Turn the control dial to the next higher setting to increase the FAC and turn it to the next lower setting to decrease the FAC. Check the FAC residual with FROG Test Strips and increase/decrease one setting per day until you achieve at least 0.5 ppm. Do not enter the pool until the chlorine residual is at least 0.5 ppm.
5. Once you have determined the proper setting for your pool, you do not have to re-adjust the setting under normal conditions. If conditions change (i.e. weather, rain, pool use, bather load, etc.) the control dial can be easily adjusted to increase or decrease the chlorine feed.
6. Super chlorinate if needed. Do not add shock treatment to the skimmer. Turn control dial to Minimum or Setting 0 before super chlorinating. Once desired FAC has been obtained, return the control dial to the normal operating setting.
7. Periodically check the pac and replace with a new one when empty. Do not attempt to open or refill this pac. DO NOT REUSE. DO NOT REMOVE LABEL #20-43-1439. NPTN hotline number for public information: 1-800-858-7378.

WEB DIRECTION

FIRST AID: If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: CORROSIVE: If product is removed from its prefilled container, causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

PHYSICAL OR CHEMICAL HAZARDS: Corrosive: Strong oxidizing agent. Non-refillable container. Do not attempt to refill empty pac. Place only into water or installed equipment made for this product. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible fire and explosion. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unstabilized chlorinating compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL:

Do not contaminate food or feed with this product.

Product Storage: Store pac in original container in a cold, dry, well-ventilated area away from heat or open flame. In case of decomposition, dispose container and flood area with large amounts of water to dissolve all material before discarding this pac.

Pesticide Disposal: Product or rinsates that cannot be used must be diluted with water before disposal in a sanitary sewer.

Container Handling: Non-refillable container. Do not reuse or refill this pac. Shake the pac over the pool and away from your face to ensure it is empty before offering for recycling if available or dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

IMPORTANT: The warranty will be void if this pac is not used with the appropriate FROG Leap or POOL FROG Mineral System. Fire or explosion may result if this pac is used with an incorrect chemical feeder.
Note to Physician

• Hold eye open and rinse slowly and gently with water for 15-20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.
• Call poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.
• Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
• SaveTIME
• Children under 13 years
• NO HASSLES
• No contact with eyes
• No contact with mouth
• No contact with skin
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
• Call poison control center or doctor for further treatment advice.

THE EASIER ALTERNATIVE TO BULK CHLORINE

The No-Hassle Way to a Clean Pool

Reduced Odors and No Touching or Measuring Chlorine.

MODEL #01-03-1413

Pre-filled eye/ear chamber replacement pack/chambers.

• Pre-filled
• Lightweight
• Easy to Use
• Less Odors

CYCLER PAC OR REPLACEMENT CHAMBER
AUTOMATIC WATER TREATMENT PAC/CHAMBER
PRE-FILLED WITH CHLORINE

MODEL #01-03-1413

• Convenient
• Pre-filled pack/chamber eliminates exposure to chlorine for greater safety and convenience.
• Long Lasting
• Trapped air in pack/chamber keeps chlorine dry to last a season.
• Reliable
• Water cycles through only a small amount of chlorine for more uniform and reliable output.
