**PRODUCT FACTS**

**Kills**

Kills 250 types of listed insects— including Ants (Excluding Pharoah and Carpenter Ants), Aphids, Beetles (including Japanese and Cucumber beetles), Caterpillars (including Armyworms, Cabbage Looper, Corn Earworm, Cutworm, Diamondback Moth, Hornworm, Imported Cabbage worm, Lesser Peachtree Borer, Oriental Fruit Moth, Peach Twig Borer, Tomato Fruitworm, Tomato Pinworm), Leafhoppers, Mites & other listed insects

**Where To Use**

Vegetables, Fruits, Nut and Fruit Trees, Herbs, Spices, Roses, Flowers, Shubs, Evergreen and Shade Trees

**Amount To Use**

32 fl. oz covers over 5,237 sq. ft.

**When To Use**

- At the first signs of insect infestation.
- Can be used up to day before harvest.
- Kills eggs during dormant stage.

**EPA Reg. No. 1021-1798-71004**

**EPA Est. 67572-GA-1a, 67572-GA-2b**

Subscript used is first letter of run code on container.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-800-420-9347.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed or absorbed through the skin. Avoid contact with eyes, skin or clothing. Wear long-sleeved shirt, long pants, shoes, socks and chemical-resistant gloves made of any waterproof material. Remove contaminated clothing and wash clothing before reuse. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Avoid contamination of food and feedstuffs. Remove pets and birds and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Finishing application equipment over the treated area will help avoid run off to water bodies or drainage systems. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Do not use this product in or on electrical equipment because of shock hazard.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Pesticide Storage: Keep this product in its tightly closed original container when not in use. Store in a cool, dry (preferably locked) area that is inaccessible to children and animals. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Disposal: Nonrefillable container. Do not reuse or refill this container. If empty, place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
**KEEP OUT OF REACH OF CHILDREN**

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use this product in or on electrical equipment because of shock hazard.

GardenTech® WorryFree® Brand Ready-To-Spray provides rapid kill of listed insects without objectionable residues.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Use Restrictions**

• Apply this product only as specified on this label.
• Do not contaminate food or feedstuffs.
• Not for use in outdoor residential misting systems.
• Do not make applications during rain.
• When used outdoors as a surface or spray application: All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses: (1) Treatment to soil or vegetation around structures; (2) Applications to lawns, turf and other vegetation; and (3) Applications to building foundations, up to a maximum height of 3 feet. Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only.
• When used as a spray application to plants: Do not wet plants to point of run-off or drip. Do not water the treated area to the point of run-off.
• Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
• Do not apply more than 1 time per day.
• Do not reapply within 3 days except under extreme pest pressure.
• Do not apply more than 10 times per season.
• Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors and/or mists have dispersed.

**Entry Restrictions:** For surface spray use: Do not allow adults, children, or pets to enter the treated area until sprays have dried. For space spray use: Do not allow adults, children, or pets to enter until vapors, mists and aerosols have dispersed, and the treated area has been thoroughly ventilated.

**Application Restrictions:** Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.

**SHAKE WELL BEFORE USING.**

The product may be used outdoors as a contact spray for flying and crawling pests commonly found in and around the garden and landscaping. This product contains Pyrethrins, a botanical insecticide derived from the Chrysanthemum flower, to give fast and effective kill on contact. Pyrethrins also will "flush" hiding insects, which then allows you to spray them for immediate contact kill. This product may be used throughout the growing season; or as a pre-harvest treatment. It is acceptable for use up to the day of harvest on edible plants. This product must come into contact with insects in order to kill them. Coverage of the target insect is vital to achieving good performance.

Read all directions completely before use. For best results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard.

**WHEN TO APPLY:** Use at first signs of insect infestation, preferably before damage and feeding occurs. Do not wait until plants are heavily infested. Spray may be applied up to and including day of harvest.

For Best Results: Apply in the twilight hours of the evening or just before sunrise to avoid possible harm to honey bees. Honey bees normally forage during the daylight hours, when the temperatures reach or exceed 55 degrees F.

**WHERE TO USE:** On Vegetables, Fruit and Nut Trees, Fruits, Nuts, Roses, Flowers, Ornamentals, Herbs, Spices, Shrubs, Bushes, Evergreens, Shade Trees. Do not use on lawns or large trees. For trees taller than 10 feet, consider hiring a licensed professional.
FOR HOSE-END BOTTLE SPRAYERS

How To Use:
1. Wearing household latex or rubber gloves, shake bottle before using.
2. Attach garden hose to spray nozzle.
3. Turn on water supply.
4. Push safety tab and turn control knob to “Water” position.
5. Point nozzle toward plants and turn water control knob to “On”. Product will automatically mix with water.
6. Hold spray nozzle about 12” from the plants.
7. Apply when air is calm to avoid drift and contact with eyes and skin.
8. Start spraying at the farthest corner of the treatment area and work backward to avoid contact with wet surfaces.
10. Allow spray to dry in treated areas before reentering.

Caution should be taken to avoid spraying when wind conditions could create a mist to blow back to applicator. Do not apply this product in or around bodies of water. Spray the surface areas and contact as many insects as possible.

FLIES, GNATS, SMALL FLYING MOTHS. Midge, Small flying insects and other flying insects: Hold container 18-24 inches from shrubs, bushes, grassy areas and other areas infested with these pests. Spray with a slow sweeping motion while moving away from the treated area. To reduce annoyance from these pests, treat open porches and patios in a similar manner. Kills flies, midges, gnats and when used intermitently during outdoor activities, will keep the surrounding areas free from these pests. Allow spray to dissipate before occupying the treated area.

ANTS (including Black Carpenter Ants): Spray ant trails, anthills and other areas of entry and infestation. Spray on ants where possible.

SPIDERS: Spray directly on spiders and webs.

SOWBUGS, MILLIPEDES, BEETLES, EARWIGS, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated Stink Bugs, Stink Bugs, Pillbugs, Scorpions, Cockroaches, Crickets, Waterbugs, Palmetto Bugs: Spray surfaces thoroughly and into hiding places such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds and other areas where these pests tend to congregate.

SOW BUGS, MILLIPEDES, BEETLES, EARWIGS, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated Stink Bugs, Stink Bugs, Pillbugs, Scorpions, Cockroaches, Crickets, Waterbugs, Palmetto Bugs: Spray surfaces thoroughly and into hiding places such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds and other areas where these pests tend to congregate.

FLIES, GNATS, SMALL FLYING MOTHS, Midge, Small flying Insects and other flying insects: Hold container 18-24 inches from shrubs, bushes, grassy areas and other areas infested with these pests. Spray with a slow sweeping motion while moving away from the treated area. To reduce annoyance from these pests, treat open porches and patios in a similar manner. Kills flies, midges, gnats and when used intermitently during outdoor activities, will keep the surrounding areas free from these pests. Allow spray to dissipate before occupying the treated area.

ANTS (including Black Carpenter Ants): Spray ant trails, anthills and other areas of entry and infestation. Spray on ants where possible.

SPIDERS: Spray directly on spiders and webs.

SOWBUGS, MILLIPEDES, BEETLES, EARWIGS, Asian Lady Beetles, Boxelder Bugs, Brown Marmorated Stink Bugs, Stink Bugs, Pillbugs, Scorpions, Cockroaches, Crickets, Waterbugs, Palmetto Bugs: Spray surfaces thoroughly and into hiding places such as cracks, crevices, moist areas, openings around pipes, spigots, storage areas, sheds and other areas where these pests tend to congregate.

**ORNAMENTAL TREES, SHRUBS AND FLOWERS**  
(Roses, Flowers, Other Herbaceous Plants), Woody Plants and Shrubs

**USE DIRECTIONS AND LIMITATIONS: TREES AND ORNAMENTALS**

- For trees taller than 10 feet, consider hiring a licensed professional
- Do not apply more than one (1) time per day.
- Do not wet plants to point of runoff or drip

For treating ornamental trees, shrubs and flowers, apply at a rate covering 6-6.5 square feet per second.

Measure area before applying and calculate the total area in square footage. Multiply length x width measured in feet to arrive at square feet of area to be treated.

Example: Your ornamental flower garden with shrubs measures 60 feet in length and 4 feet in width. Calculate square footage by multiplying l x w, or in this example, 60 feet by 4 feet to equal 240 square feet.

Divide 240 square feet by 6 square feet per second to arrive at 40 seconds. Spray to cover the treatment area for 40 seconds.

Rule of Thumb when using this product for Ornamental Trees, Shrubs, and Flowers: You will need to cover 196 square feet or more with spray per 30 seconds. (98 square feet per 15 seconds)

This product covers 3,122 up to 5,240 square feet Ornamental, Flowering and Foliage Plants
