SENTRY® PurrScriptions® PLUS Flea Collar for Cats (Over 12 weeks of age) kills fleas and flea eggs for up to 6 months and ticks for up to 3 months. Collar is effective against adult fleas and ticks, but does not kill eggs or larvae. The collar contains four active ingredients that protect cats from fleas and ticks. The collar is designed to be worn continuously, and it comes with instructions on how to use it properly.

**DIRECTIONS FOR USE**

1. Remove the old collar before putting on the new one. Make sure the collar is properly fitted on your cat’s neck. The collar must be worn loosely to allow for proper breathing.
2. Bend the buckle in half between the holes in the buckle, so that you can slide the collar through both holes.
3. Place the collar around your cat’s neck. Make sure the buckle is facing out. Fit to the neck of the cat. The collar must be worn loosely to allow for proper breathing.
4. Make sure the collar is snugly sliding over your cat’s head, and it should not be too loose or too tight. Adjust the collar until it fits properly.

**STORAGE AND DISPOSAL**

Place the collar in a cool, dry, and dark place. It is designed to be worn continuously, and it can be replaced after 6 months or sooner if needed. Do not store the collar in plastic, as it can cause the active ingredients to degrade. The collar should be disposed of properly after use.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

If swallowed, contact a physician immediately. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
