SI USTENO NO ENTIENTE LA ETIQUETA, BUSQUE A ALGUIEN PARA QUE SE LA EXPLIQUE A USTENO EN DETALLE.

IF YOU DO NOT UNDERSTAND THE LABEL, FIND SOMEONE TO EXPLAIN IT TO YOU IN DETAIL.

FIRST AID
In case of emergency, call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
IF SWALLOWED: Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Call a poison control center or doctor immediately for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or absorbed through the skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARDS
This product is toxic to fish, aquatic invertebrates, oysters and shrimp. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge sentient containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NET CONTENTS: 30 Gal □ 55 Gal □

FUNGICIDAL PERFORMANCE: This product kills the following fungi in 10 minutes at 0.5 oz. per gal. of water (660 ppm active) and 5% soil on hard, non-porous surfaces:
- Candida albicans
- Trichophyton mentagrophytes

MILDEWSTATIC PERFORMANCE: This product controls the following mold in 10 minutes at 0.5 oz. per gal. of water (660 ppm active) on hard, non-porous surfaces:
- Aspergillus niger

Bordetella bronchiseptica
Escherichia coli
Klebsiella oxytoca
Klebsiella pneumoniae
Pseudomonas aeruginosa
Salmonella enterica
Salmonella enteritidis
Shigella flexneri
Shigella sonnei
Staphylococcus aureus (Community Associated Methicillin Resistant)
Staphylococcus aureus (Methicillin Resistant)

VIRUCIDAL PERFORMANCE: This product kills the following viruses in 10 minutes at 0.5 oz. per gal. of water (660 ppm active) and 5% soil on hard, non-porous surfaces:
- Cytomegalovirus
- Coronavirus SARS-associated
- Hepatitis B Virus
- Hepatitis C Virus
- Herpes Simplex Virus Type 1
- Herpes Simplex Virus Type 2
- Human Coronavirus
- Human Immunodeficiency Virus Type 1
- Respiratory Syncytial Virus

ANIMAL PREMISE VIRUCIDAL PERFORMANCE: This product kills the following viruses in 10 minutes at 0.5 oz. per gal. of water (660 ppm active) and 5% soil on hard, non-porous surfaces:
- Avian Infectious Bronchitis Virus
- Avian Influenza A Virus (H5N1)
- Avian Influenza A Virus (H3N2)
- Canine Coronavirus
- Canine Distemper Virus
- Feline Coronavirus
- Infectious Bovine Rhinotracheitis Virus
- Pseudorabies Virus
- Swine Influenza A Virus (H1N1)
- Transmissible Gastroenteritis Virus

This product kills the following viruses in 10 minutes at 2 oz. per gal. of water and 5% soil on hard, non-porous surfaces:
- Canine Parvovirus**
- Mouse** (Parvovirus) (Not for use in CA.)
- Rabies**
- Porcine Parvovirus**

** Indicates that a dilution of 2 oz. per gal. of water is required for this claim.

NON-FOOD CONTACT SANITIZING PERFORMANCE: This product is an effective one-step sanitizer in 3 minutes at 0.5 oz. per gal. of water (660 ppm active) and 5% soil on hard, non-porous surfaces:
- Klebsiella pneumoniae
- Staphylococcus aureus

DISINFECTION PERFORMANCE IN INSTITUTIONS AND NON-MEDICAL FACILITIES: This product kills the following bacteria in 10 minutes at 0.5 oz. per gal. of water (660 ppm active) and 5% soil on hard, non-porous surfaces:
- Bordetella bronchiseptica
- Escherichia coli
- Klebsiella oxytoca
- Klebsiella pneumoniae
- Pseudomonas aeruginosa
- Salmonella enterica
- Salmonella enteritidis
- Shigella flexneri
- Shigella sonnei
- Staphylococcus aureus
This product is for use on hard, non-porous surfaces in:
- Veterinary clinics, animal life science laboratories, animal laboratories, animal research centers, animal quarantine areas, animal holding areas, equine farms, animal kennels, animal breeding facilities, breeding establishments, animal husbandry establishments, grooming establishments, pet animal quarters, animal housing facilities, examination rooms and other animal care facilities.
- This product when used as directed can be used on washable hard, non-porous surfaces such as: hatchers, setters, trays, racks, egg flats, chick boxes, vans and trash containers, poultry/turkey equipment, carts, sexing tables and automated tray, rack and buggy washers, egg receiving and egg holding areas.
- When used as directed at a 1:256 dilution, 0.5 oz. of this product per gallon of water, this product contains 660 ppm of active quaternary germicide, making it highly effective against a wide variety of pathogenic microorganisms.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product is not for use on medical device surfaces.

**FOR USE AS A ONE-STEP, GENERAL, HOSPITAL, MEDICAL DISINFECTANT, FUNGICIDE, VIRUCIDE**, CLEANER:

1. Pre-clean heavily soiled areas.
2. Apply use solution of 0.5 oz. of this product per gal. of water (or equivalent use dilution) to disinfect hard, non-porous surfaces with a sponge, brush, cloth, mop, by immersion, auto scrubber, mechanical spray device, hand pump, coarse pump or trigger spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray.
3. Treated surfaces must remain wet for 10 minutes.
4. Allow to air dry.
5. Prepare a fresh solution daily or when visibly dirty.

*KILLS HIV, HBV AND HCV ON PRECLEANED HARD, NON-POROUS SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of hard non-porous surfaces/objects with blood or body fluids and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS, Hepatitis B Virus (HBV), and Hepatitis C Virus (HCV).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1, HBV AND HCV ON SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.**

Personal Protection: Wear protective latex gloves, gowns, masks and eye protection.

Cleaning Procedure: Blood and other body fluids containing HIV-1, HBV and HCV must be thoroughly cleaned from hard non-porous surfaces and objects before application of this product.

Disposal of Infectious Materials: Blood and other body fluids, cleaning materials and clothing must be autoclaved and disposed of according to federal, state and local regulations for infectious waste disposal.

Contact Time: Allow hard, non-porous surfaces to remain wet for 10 minutes for all organisms.

**NON-FOOD CONTACT SANITIZING DIRECTIONS**

**NON-FOOD CONTACT SANITIZING:** Pre-clean heavily soiled areas. Add 0.5 oz. of this product per gal. of water (660 ppm active) (or equivalent use dilution). Apply solution to hard, non-porous surfaces with a sponge, brush, cloth, mop, by immersion, auto scrubber, mechanical spray device, hand pump, coarse pump or trigger spray device. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Treated surfaces must remain wet for 3 minutes. Prepare a fresh solution daily or when visibly dirty.

**SHOE BATH SANITIZER DIRECTIONS:** To prevent cross contamination from area to area in animal areas, shoe baths containing one inch of freshely made sanitizing solution must be placed at all entrances to buildings, hatcheries and at all the entrances to the production and packaging rooms. Scrape waterproof shoes and place in a 0.5 oz. of this product per gallon of water use solution for 3 minutes prior to entering area. Prepare a fresh solution daily or when visibly dirty.

**TO CONTROL MOLD/MILDEN:** Pre-clean heavily soiled areas. Prepare use solution by adding 0.5 oz. of this product per gal. of water. Apply use solution to hard, non-porous surfaces for 10 minutes which will effectively inhibit the growth of mold and mildew and their odors. Repeat treatment every seven days, or more often if new growth appears.

**ANIMAL PREMISES**

Prior to use of this product, remove all animals and feeds from areas to be treated, animal transportation vehicles, and enclosures. Remove all litter, droppings and manure from floors, walls and surfaces of barns, pens, stalls, chutes and other surfaces of facilities and fixtures occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean surfaces with soap or detergent and rinse with water.

**FOR USE AS AN ANIMAL PREMISES DISINFECTANT/VIRUCIDE:** Prepare a use solution of 0.5 oz. of this product per gal. of water 1:256 (660 ppm) for effectiveness against designated animal viruses on the label.

**FOR USE AS AN ANIMAL PREMISES DISINFECTANT/VIRUCIDE**: Prepare a use solution of 2.0 oz. of this product per gal. of water 1:64 (2640 ppm) for effectiveness against designated animal viruses on the label.

Apply solution to disinfect hard, non-porous surfaces with a sponge, brush, cloth, by immersion, mechanical spray device, hand pump, coarse pump or trigger spray device. Immerse all utensils and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure in the use solution. For spray applications, spray 6-8 inches from surface. Do not breathe spray. Treated surfaces must remain wet for 10 minutes. Ventilate buildings, coops and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. Thoroughly scrub all treated feed racks, troughs, automatic feeders, feeders, fountains and waterers and other treated equipment which can contact food or water with soap or detergent, and rinse with potable water before reuse.

**SPECIAL INSTRUCTIONS FOR CLEANING AND DISINFECTING AREAS WHICH MAY BE INFESTED WITH HANTAVIRUS**

Infection with Hantavirus occurs by inhalation of infectious materials. CDC recommends that persons involved with cleanup wear coveralls, disposable, if possible, rubber boots or disposable shoe covers, rubber or plastic gloves, protective goggles, and a half mask air purifying, negative pressure respirator with a high efficiency particulate air (HEPA) filter or a powered air-purifying respirator (PAPR) with HEPA filter. Disinfect Personal protective gear upon removal at the end of the day. If coveralls are not disposable, they must be laundered on site. If no laundry facilities are available, the coveralls must be immersed in liquid disinfectant until they can be washed.

All potential infective waste material including respirator filter from cleanup operations that cannot be burned or deep buried on site must be double bagged in appropriate plastic bags. The bagged material must then be labeled as infectious if it is to be transported and disposed of in accordance with local requirements for infectious wastes.

Rodent droppings and visible dust can be reservoirs for Hantavirus. If you are cleaning out a building that has been closed up, such as a cabin, shed or garage:

1. Air out the building for at least 30 minutes by opening windows and doors.
2. Leave the building while it is airing out.
3. Do not vacuum, sweep or dust. This may spread the virus through the air. Thoroughly wet the contaminated areas with a 0.5 oz. of this product per gal. of water use solution (660 ppm active) (or equivalent use dilution) and allow to stand undisturbed for 10 minutes.
5. Carefully remove contaminated material and dispose by burial or burning. Contact your local and state health department for additional disposal methods.
6. Treat the surface again following the label directions and allow solution to stand undisturbed for 10 minutes.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**PESTICIDE STORAGE:** Store only in original container. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Non-Refillable Container. Do not rework or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration.
