This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. Read and follow all directions.

FIRST AID
If swallowed:
• Do not induce vomiting unless told to do so by the poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If inhaled:
• Move person to fresh air.
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, if possible.

If contacted:
• Do not give anything by mouth to an unconscious person.

CAUTION: Harmful if swallowed. Avoid contact with eyes, mouth, or skin. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area when bait is present.

Keep pets out of treated area when bait is present.

If on skin or clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for at least 15 minutes.

If in eyes:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

When disposing of contaminated clothing, disinfect and hot water.

Hotline number: Have the product container or label with you when calling a poison control center or doctor for treatment advice.

User safety recommendations
Users should: Wash hands before eating, drinking, chewing gum or using tobacco. If using tool, remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove PPE immediately after handling. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

Environmental hazards
Do not apply directly to water. Do not apply to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water, food or feed by storage or disposal.

Storage and disposal:
Do not contaminate water, food or feed storage or disposal. STORAGE: Store product in original labeled container in a cool, dry, locked place out of reach of children. Keep container tightly closed when not in use. Do not store in direct sunlight. PPE: When disposing of the contents of the bag, nonrefillable container, or any other embalmed packaging materials, follow the procedures indicated in the USE PRECAUTIONS section. DISPOSAL: Disposal of contents from the bag, nonrefillable container, or any other embalmed packaging materials should be made in accordance with the local, state, and federal statutes. If product is used in an agricultural environment, the use of this pesticide is controlled by the Worker Protection Standard (WPS), 29 CFR Part 1910.

The WPS applies only when this product is used to produce agricultural crops on farms, forests, nurseries, and greenhouses for production to commercial markets. The WPS applies only to employers and workers in these environments. In non-agricultural environments, the use of this pesticide is controlled by the environmental laws and regulations of the State or Tribe. If you are uncertain whether you are affected by the WPS, contact your local agricultural or environmental agency. When disposing of equipment wash-waters, follow directions and use with care.

Directors for use
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product in a manner that will contact workers or other persons during treatment directly or by drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation in your State or Tribe.

In accordance with the USE PRECAUTIONS, STATEMENTS AND DIRECTIONS FOR USE, OR-Cal Slug & Snail Bait is a soil surface treatment for control of slugs and snails in vegetable crops and gardens, ornamental gardens, seed grasses, dichondra and turf grass lawns and in ornamental greenhouses. When applied as directed, OR-Cal Slug & Snail Bait will withstand rain and sprinkling and will offer protection to gardens and lawns for several weeks.
