**Vita Grow Ready To Use Rooting Compound**

**Simple, ready to use formula stimulates rooting of herbaceous & woody cuttings.**

1. **Directions for Use**
   - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Ready to use. Do not dilute. Take a cutting from the plant. Pour Vita Grow Ready To Use Solution into a small container. Dip the stem into the solution to the desired rooting depth. Make sure at least one node (without the leaf) is submerged into the compound for 5 to 15 seconds for softwood and 10 to 30 seconds for hardwood. (See illustrations) Place the treated cutting into moist propagating media.

2. **For propagating areas without an automatic watering/humidity control system, try to keep your cuttings in a climate bottom heated to 70 - 75 degrees F, with high humidity and where air is circulating. When propagating a small amount of cuttings, use a cutting tray with a clear cover. Mist plants with water once or twice a day or use Vita Grow Anti-Wilt.**

**Active Ingredients By Weight**

- Indole-3-butyric acid 00.133%
- 1-Naphthalene acetic acid 00.076%
- Inert Ingredients 99.791%
- Total 100.000%
