SUPPLEMENTAL LABELING

JUDGE™ 50 WDG Fungicide
For Use on Post-harvest Pear, Asian Pears, Pomegranate, Plums and Prunes, Fresh,

GROUP 17 FUNGICIDE

Not for Residential Use

ACTIVE INGREDIENT:
Fenhexamid* ................................................................................................... 50.0%
OTHER INGREDIENTS: ................................................................................... 50.0%
Total ................................................................................................................. 100.0%

* N-(2,3-dichloro-4-hydroxyphenyl)-1-methyl-cyclohexane carboxamide

EPA Reg. No. 66330-35

DIRECTION FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Follow all applicable directions, restrictions, worker protection standard requirements, and precautions on the EPA registered main label for Judge™ 50 WDG Fungicide (EPA Reg. No. 66330-35). This supplemental label must be in the possession of the user at the time of application.

PLUMS and PRUNES, FRESH
Post-Harvest Applications

<table>
<thead>
<tr>
<th>Disease</th>

</tr>
</thead>
<tbody>
<tr>
<td>Brown rot (Monilinia spp.)</td>
<td>High volume Packing-line spray</td>
<td>1.5 lb (0.75 lb Al) per 100 gallons of water, wax/oil emulsion or aqueous dilution of a wax/oil emulsion to 200,000 lbs of fruit.</td>
</tr>
<tr>
<td></td>
<td>Low volume Packing-line spray</td>
<td>1.5 lb (0.75 lb Al) in 8 - 25 gallons of water, wax/oil emulsion or aqueous dilution of a wax/oil emulsion to 200,000 lbs of fruit.</td>
</tr>
</tbody>
</table>
### PEAR and ORIENTAL PEAR Post-Harvest Applications

<table>
<thead>
<tr>
<th>Disease</th>
<th>Application Type</th>
<th>Application Rate</th>
<th>Application Timing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fruit Rot (Botrytis cinerea)</td>
<td>Low-Volume Packing-line spray</td>
<td>1.0 to 1.5 lbs (0.75 lb AI) per 200,000 lbs fruit in 8–20 gallons of an appropriate water, wax/oil emulsion, or aqueous dilution of a wax/oil emulsion.</td>
<td>Post-harvest</td>
</tr>
<tr>
<td></td>
<td>High-Volume Packing-line spray</td>
<td>1.0 to 1.5 lbs (0.75 lb AI) per 200,000 lbs fruit in 100 gallons of an appropriate water, wax/oil emulsion, or aqueous dilution of a wax/oil emulsion.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Fruit dip treatment</td>
<td>1.0 to 1.5 lbs (0.75 lb AI) per 200,000 lbs fruit in 100 gallons of an appropriate water, wax/oil emulsion, or aqueous dilution of a wax/oil emulsion. Fruit should remain in dip solution for 20 to 30 seconds.</td>
<td></td>
</tr>
</tbody>
</table>

**Post-Harvest Restrictions:**
- Apply only as post-harvest spray to fruit in a packing line or dip fruit in the solution for 30 seconds.
- Do not make more than one post-harvest application.
- For low volume (concentrated) application use a control droplet-type application (CDA) system or similar low volume system.
- Do not apply more than 1.5 lbs of JUDGE 50 WDG (0.75 lb AI) as a post-harvest treatment.
- Leftover dip or spray mixtures containing JUDGE 50 WDG may be used as a foliar spray on other registered crops, observing all restrictions such as maximum pounds applied per application per season.
- When calculating application rates, if analytical services are not available to determine the exact quantity of JUDGE 50 WDG remaining in the mixture, assume that the tank still contains the initial concentration of JUDGE 50 WDG per gallon (1.5 lb per volume).
- If the dip or spray mixture contains other pesticides in addition to JUDGE 50 WDG, refer to the product label(s) for information regarding disposal. Apply only on a crop for which all products are registered and follow all restrictions such as maximum pounds applied per application per season.
## Pomegranate Post-Harvest Applications

<table>
<thead>
<tr>
<th>Disease</th>
<th>Application Type</th>
<th>Application Rate</th>
<th>Application Timing</th>
</tr>
</thead>
<tbody>
<tr>
<td>Botrytis Fruit Rot</td>
<td>Fruit dip treatment</td>
<td>1.5 lbs (0.75 lb ai) in 100 gallons of water. Fruit should remain in dip solution for 20 to 30 seconds.</td>
<td>Post harvest</td>
</tr>
</tbody>
</table>

### Post-Harvest Restrictions:
- Do not make more than one application to fruit.
- Use only as a post harvest application.
- Leftover dip containing JUDGE 50 WDG may be used as a foliar spray on other registered crops, observing all restrictions such as maximum pounds applied per application per season.
- When calculating application rates, if analytical services are not available to determine the exact quantity of JUDGE 50 WDG remaining in the mixture, assume that the tank still contains the initial concentration of JUDGE 50 WDG per gallon (1.5 lbs per 100 gallons).
- If the dip contains other pesticides in addition to JUDGE 50 WDG, refer to the product label(s) for information regarding disposal. Apply only on a crop for which all products are registered and follow all restrictions such as maximum pounds applied per application and season.
