PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN HEALTH AND DOMESTIC ANIMALS: Do not touch skin or inhale. Do not contaminate clothing or equipment with this material. If clothing becomes contaminated, wash with soap and water. If the site is not visibly soiled, at least one gallon of water should be applied over the contaminated area.

HAZARDS TO RECREATIONAL AND SPORTING FISH: CAUTION: Do not mix with other chemicals. Mix only with water.

Rinse skin immediately with plenty of water for 15-20 minutes. When the system is noticeably fouled, add 2.6 to 7.7 fluid ounces of this product per 1000 gallons (20 to 60 milliliters/1000 liters) of water contained in the system. Repeat until control is achieved.

DOSAGE RATES FOR ABOVE APPLICATIONS:

1. PIPELINE PIGGING AND SCRAPING OPERATIONS: This product should be added to these fluids at a point where uniform mixing will occur. Add 100-1000 ppm of this product to a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring dignity comes to the bottom. Add this product at a point of uniform mixing such as the basin area. This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into surface waters.

2. AIR SCRUBBING SYSTEMS: Add this product at a point of uniform mixing such as the basin area. This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into surface waters.

When used as directed, this product effectively controls algal, bacterial, and fungal slimes in commercial and industrial cooling towers, air washing systems equipped with a mist eliminator, and industrial air scrubbing systems. Add this product at a point of uniform mixing such as the basin area.

For use as an algicide, bactericide, fungicide, for the control of algae, slime forming bacteria, sulfate reducing bacteria, and fungi in commercial and industrial cooling towers, air washing systems equipped with a mist eliminator, and industrial air scrubbing systems, recirculating cooling water and process water systems including cooling towers, heat exchangers, air washers, and industrial air scrubbing systems, as an injection for preparing gas and oil well maintenance fluids. FOR INDUSTRIAL APPLICATION using closed metered process water (e.g.: brown paper, corrugated sheet, Kraft paper, newsprint, etc.), and enhanced oil recovery systems, air-washers and industrial air scrubbing systems, recirculating cooling water and process water systems including cooling towers, heat exchangers, air washers, and industrial air scrubbing systems. Add this product at a point of uniform mixing such as the basin area.

USE RESTRICTED TO: USE RESTRICTED TO: MANUFACTURER OR DISTRIBUTOR.
