

**What will I see?**

Works quickly; dying weeds will be seen within hours of application. Treated weeds, moss or algae will turn brown or black. Occasionally a darkening of the grass leaf blades can occur after treatment, however the grass will recover within a few days to weeks. May stain thatch (dead grass under lawn); this does not affect the health of the grass.

**Use Precautions:**

Do not apply to drought stressed grass; ensure lawn is well watered prior to application. Do not apply when the daytime temperature will exceed 85°F. Do not apply to bentgrass. If unsure of grass sensitivity, test spray a small area of your lawn. Do not apply to newly seeded areas prior to grass seed germination. Avoid spraying desirable plants. Any desirable plants or structures accidentally contacted should be rinsed with water. To avoid staining, wait until treated area dries before re-entry. Do not apply if rainfall is expected within 3 hours of application. Do not irrigate within 3 hours of application. Do not apply to the same area more than 4 times a year.

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** Store this product in its original container and keep in a secure storage area out of reach of children and domestic animals. Store unused material, tightly closed, in original container only, away from open flame.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:**

Non-refillable container. Do not reuse or refill this container.

**If empty:** Place in trash or offer for recycling if available.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

### Precautionary Statements Hazards to Humans and Domestic Animals CAUTION

Causes slight eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

**Environmental Hazards**

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

**Directions For Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Use Sites:** Use to selectively control/suppress broadleaf weeds growing in lawns.

**Pests:** Controls weeds: Bull thistle (*Cirsium vulgare*), Dandelion (*Taraxicum officinale*), Creeping buttercup (*Ranunculus repens*), Moss, Speedwell spp., Persian speedwell (*Veronica persica*), White clover (*Trifolium repens*)

Suppresses weeds: Black medic (*Medicago lupulina*), English daisy (*Bellis perennis*), Common chickweed\* (*Stellaria media*)

\*At high rate only

**Application Directions**

Shake well before using. Mix one part Iron X!™ Selective Weed Killer for Lawns with 24 parts water (5 oz. in 1 gallon of water). Apply the mixed solution at a rate of 5-10 gallons/1000 ft<sup>2</sup> (5.6-11.5 fl. oz./yard<sup>2</sup>). Any standard hand-held or backpack sprayer can be used. Thoroughly spray weeds. Use a coarse nozzle setting to reduce drift. Uniform coverage is important. Repeat treatment in 3-4 weeks for best results.
