## GRO-POWER®

### PURE'N'NATURAL® SNAIL & SLUG AWAY™ NATURAL, ORGANIC

#### GENERAL INFORMATION:

Pure'n'Natural® Snail & Slug Away™ not only stops snails and slugs in their tracks, but creates a protective repellent barrier to prevent reinfestation. The product also kills snail and slug eggs that live in the soil. Snails and slugs will foam on spray contact. Your flowers and vegetables will thrive and grow while your snail and slug populations will diminish.

#### DIRECTIONS FOR USE:

**APPLICATION & SPREAD RATE:** (1) Agitate concentrate *gently* prior to diluting. (Excessive shaking may cause foam build up). Mix 2 ounces of Concentrate in 1 gallon of water to make Ready-To-Use Spray. Each gallon of concentrate will make enough Ready-To-Use spray to cover approximately 1 acre. The Ready-To-Use spray can be safely applied directly to all food crops (vegetable and fruit) as well as soil and surface environments. Spray ground or foliage where pests occur. (2) Do not mix any more Ready-To-Use spray than will be applied **within 72 hours**.

**Ready-to-Use Spray:** Spray directly on areas around plant where control of snails and slugs is desired. **Vegetables:** Spray base of plant first, then spray foliage where snails and slugs appear. Do not spray plants under stress. **If using decollate snails as a natural control, do not spray directly on decollates or the soil they inhabit.** Repeat spray as needed. **Flowers and Ornamentals:** For extended efficacy, spray the ground around plants to kill or repel snails and slugs and to kill eggs. Then spray foliage where snails or slugs appear. Do not spray plants under stress. Repeat spray as needed. Let dry for efficacy. Becomes rainfast in 30 minutes. Re-apply product every 5 to 7 days or after heavy rainfall until infestation is controlled.

**Storage and Disposal:** Protect from freezing and high temperatures. Keep out of Reach of Children. Do not store in play areas. If container is empty, rinse, place in trash or recycling container if available.

#### PRECAUTIONARY STATEMENTS:

No hazard to humans, domestic animals, wildlife or soil environment (earthworms) has been detected from use or exposure to this product. Rinse fruits and vegetables gently with lukewarm water prior to preparing or consuming. **If sprayed in Eyes:** Rinse eyes for 1-3 minutes. Remove contact lenses, and continue flushing eyes. For further information regarding this product, please call (800) 473-1307. See MSDS for further safety information.

#### ACTIVE INGREDIENTS:

Cinnamon Oil 1.35%

#### OTHER INGREDIENTS:

Soapbark, water, soybean oil,  
sunflower oil 98.65%  
TOTAL 100.00%
