WEEDS AFFECTED**Whitney Farms® Weed & Grass Killer**

controls the following broadleaf and grassy weeds:
Oxalis, Broadleaf plantain, Canada thistle, Common mullein,
Redroot pigweed, Velvetleaf, Purslane, Smartweed, Henbit, Spotted
spurge, Crabgrass, Wild strawberry, Dandelion, Dollarweed, Matchweed,
Niruri and Kentucky Bluegrass. Use as a spot treatment along sidewalks,
flowerbeds, gardens, fences, driveways and patios. NOT recommended for spot weed
control in lawns since this product kills all green plants, including lawn grasses.

HOW IT WORKS: This product's label does not make claims of residual activity or systemic
control. Most weeds will recover and begin to grow back, necessitating a need for multiple
applications to achieve complete control.

DIRECTIONS FOR USE: Shake well. Adjust nozzle to spray setting. Spray product until leaves are
completely covered. Do not spray near heat or open flame. If necessary, use cardboard or plastic to
shield desirable plants. If accidental spray contact occurs, immediately rinse the foliage with water.
Because it is made from natural ingredients you should shake the can before using and once in a
while during use. **IMPORTANT:** Spray carefully. Avoid spray drift onto desirable lawn grasses,
shrubs or trees. This product can kill or damage all vegetation contacted.

Whitney Farms® Weed & Grass Killer: may leave a temporary oil mark but will not stain
concrete or walkways. This product may stain asphalt.

KEEP OUT OF REACH OF CHILDREN**PRECAUTIONARY STATEMENTS**

CAUTION: Skin irritant. Avoid contact with skin or clothing. Wash thoroughly with soap
and water after handling. Not intended for human consumption.

FIRST AID: If on skin: Rinse immediately with plenty of water for 15-20 minutes. If
irritation persists, contact a physician.

STORAGE AND DISPOSAL

STORAGE: Store in original container, in cool, dry area away from heat or open flame.

DISPOSAL: Do not reuse container. Dispose in trash or offer for recycling, if available.

**MALEZAS
AFECTADAS**

El mata malezas y gramas **Whitney Farms® Weed & Grass Killer**
controla las siguientes malezas gramíneas y de hoja ancha: vinagrillo,
lantén, cardo canadiense, verbasco, sanguinaria, yuca de China, verdolaga,
persicaria, ortiga mansa, tártao moteado, zacate mano de cangrejo, fresa silvestre,
diente de león, acarioba, cerillo, rompe piedra y pasto azul de Kentucky. Úselo como
tratamiento localizado a lo largo de aceras, arriates, jardines, cercas, caminos de acceso y
patios. NO se recomienda para el control localizado de malezas en céspedes ya que este
producto elimina todas las plantas verdes incluyendo el césped.

CÓMO FUNCIONA: La etiqueta de este producto no tiene declaraciones de actividad
residual o control sistémico. La mayoría de malezas se recuperarán y empezarán a crecer de
nuevo, por lo que serán necesarias varias aplicaciones para lograr el control completo.

INSTRUCCIONES: Agite bien. Ajuste la boquilla en la posición para rociar. Rocíe el producto
hasta que las hojas estén completamente cubiertas. No rocíe cerca de calor o llamas abiertas. Si
es necesario, use cartón o plástico para proteger las plantas que no desee eliminar. Si rocía
accidentalmente, lave el follaje inmediatamente con agua. Es necesario agitar la lata antes de
usarla y una vez mientras está en uso debido a que está preparado con ingredientes naturales.

IMPORTANTE: Rocíe cuidadosamente. Evite que el rocío se esparza a céspedes, arbustos o
árboles que no desee eliminar. Este producto puede eliminar o dañar toda la vegetación con la
que entre en contacto.

El mata malezas y gramas **Whitney Farms® Weed & Grass Killer** puede dejar una marca
temporal de aceite pero no manchará el concreto o pasos peatonales. Este producto puede
manchar el asfalto.
