WHERE TO USE

TechDust may be applied with a hand or power duster. Dust may be injected into areas where insects tunnel or nest. To be used in and around farm buildings such as barns, stables, milking parlours, dairies, calf houses, piggeries, poultry houses, warehouses, stores, lavatories, farm offices, farmhouses, slaughter houses and other associated areas where insect control is necessary. Product use permitted in other areas or facilities when product is used according to label directions.

FIRST AID

If in eyes: hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.

If on skin: wash thoroughly with soap and water.

If inhaled: move affected person(s) to fresh air.

If ingested: rinse mouth out with water and contact a doctor for treatment advice.

If irritation develops, contact a doctor or poison control center for treatment advice. Have the product label or container with you when calling a doctor or going for treatment.

PRECAUTIONARY STATEMENTS

With direct contact, causes moderate eye irritation. Avoid contact with eyes, skin, clothing, and plants. Product is not intended for use on animals. During prolonged exposure to dust, use of a NIOSH approved respirator is recommended.

TECHDUST®

NATURAL DUST INSECTICIDE

NON TOXIC. NO HARMFUL RESIDUES
SAFE FOR USE AROUND PEOPLE AND ANIMALS

KEEP OUT OF REACH OF CHILDREN
CAUTION: REFER TO RELEVANT SECTIONS

DIRECTIONS FOR USE

Read entire label prior to use and use product as directed. Apply TechDust uniformly at the ratio of 1 to 4 ounces per 100 ft². For heavy infestations or for use on spiders or larger insects such as American cockroaches, the 4 ounces rule is recommended. Store sealed product in a dry area between uses.

FOR INDOOR USE:

Apply TechDust to cracks, crevices and wall voids for insect control and to prevent ants and cockroaches from forming nest areas or congregating. May also be applied to other areas where insects are hiding or harboring: behind backsplashes, baseboards, under tack strips, edges of linoleum or carpet, under appliances, counters, window ledges, behind and under furniture; also in closets, garages, attics, bathrooms, basements, and crawl spaces. Prior to use, test a small inconspicuous area to check for possible staining. Not intended for use on animals.

Cockroaches: Apply to voids where cockroaches may be harboring. TechDust will kill those cockroaches that are directly contacted and those that enter the area after application.

Ants: Contact kill only. Apply directly to ant trails or nesting sites.

Food areas and food handling: Apply product directly into tunnels and voids in areas away from food or food preparation areas such as walls, floorboards, under and around appliances, waste disposal areas and any other areas where insects may be hiding or harboring. Prior to product application, cover or remove food items. Avoid direct contact with food or food preparation areas.

FOR OUTDOOR USE:

For control of crawling pests that enter structures from outdoor areas, apply along edges of patios, cracks or expansion joints in or along foundations or pavement, driveways, porches, doorways (to include French and sliding glass doors), window sills and holes. Dust may also be applied in those areas where pests harbor around the structure to include under doormats, under and around potted plants, patio furniture, columns, eaves and soffits. For outdoor use, apply dust at a rate of 1 to 4 ounces for 100ft². For best results, apply dust directly to insects. Re-apply as needed or if dust becomes wet. Applications should be made so that direct contact with bodies of water (to include aquariums or ornamental ponds), or contact resulting from run-off, does not occur.

STORAGE AND DISPOSAL

For best results, store in sealed container at room temperature in a dry area away from heat or open flame. Any unused product must be disposed of on site or at an approved waste disposal facility.

Do not reuse this container. When container is empty, recycle if available or dispose in trash.

This product has not been registered by the United States Environmental Protection Agency. TyraTech Inc. represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act.
