Precautionary Statements:

Hazard to Humans and Domestic Animals

DANGER: Contains perchloric anhydride (gas). Read and understand Material Safety Data Sheet (MSDS). Do not use on live animals or in proximity of people, children, or pets. Contaminates clothing, equipment, and other surfaces. Disposal of used containers and equipment must be in accordance with local, state, and federal regulations.

Physical or Chemical Hazards:
- Contains perchloric anhydride (gas) which is an irritant to the respiratory tract.
- Physical form is a gas.

Health Hazards:
- Causes burns and lung damage at high concentrations.
- May cause respiratory irritations and allergic reactions.
- May cause eye irritation and conjunctivitis.
- Inhalation may cause respiratory irritation.

Environmental Hazards:
- May be susceptible to weather conditions, especially temperature variations.
- Physical form is gas, which may be volatile.

Storage and Disposal:

Do Not Contain Water, Food, Oil, or Food by Storage and Disposal.

Possible Storage:
- PEROXY 15 cannot be stored in any container that has been exposed to gases, liquids, or substances that could react with the contents.

Disposal:
- After use, all equipment and containers should be thoroughly cleaned with water and detergent, followed by a second rinse with water only.
- The disposal area must be cleaned and disinfected.

Product Use:
- PEROXY 15 is a bleach-based disinfectant.
- It is effective against a wide range of microorganisms, including viruses, bacteria, fungi, and yeasts.
- It is ideal for disinfecting hard surfaces, including floors, countertops, and bathrooms.
- It is also effective against mold and mildew.

Directions for Use:
- Dilute with water in a ratio of 1 part PEROXY 15 to 9 parts water for general cleaning.
- Use at least 100 ppm active chlorine for disinfection.
- Apply solution with a sprayer, mop, or sponge.

Eating Establishment Disinfecting:
- Dilute with water in a ratio of 1 part PEROXY 15 to 9 parts water for general cleaning.
- Use at least 100 ppm active chlorine for disinfection.
- Apply solution with a sprayer, mop, or sponge.

Agricultural and Industrial Disinfectant:
- PEROXY 15 is effective against a wide range of microorganisms, including viruses, bacteria, fungi, and yeasts.
- It is ideal for disinfecting hard surfaces, including floors, countertops, and bathrooms.
- It is also effective against mold and mildew.

Selling Information:
- PEROXY 15 is available in a range of containers, including 5-liter and 20-liter bottles.
- It is also available in bulk quantities.
