QNAP®
COPPER NAPHTHENATE RTU

Protects Against Decay • Above or Below Ground
Stops termites, wood destroying beetles and carpenter ants. • For preserving cedar shake roofs.
Prolongs the life of non-pressure treated wood. • Ideal for pressure-treated wood end cut protection.

WOOD PRESERVATIVE
Meets AWPA Standard M4 for END CUT TREATMENTS

Active Ingredient:
Copper Naphthenate (CAS No. 1338-02-9) 17%*
Other Ingredients ........................................... 83%
Total............................................................ 100%

Contains Petroleum Distillates

*Equivalent to 2% Metallic Copper.

Net Contents: 5 Gallons (18.927 Liters)

Keep Out of Reach of Children
WARNING
See Label for additional Precautionary Statements

EPA Reg. No. 64405-22  EPA Est. 64405-TN-1

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

### Environmental Hazards

This product is toxic to aquatic invertebrates, shrimp and oysters/clams. For Terrestrial Uses: Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate. This product may contaminate water through runoff. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your state water board or regional office of the EPA.

### Physical or Chemical Hazards

**Combustible:** Do not use or store near heat or open flame.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Notice**

Read and understand the entire label before using. Use only according to label directions. Before buying or using this product, read Warranty Disclaimer and Limitation of Remedies statements found elsewhere on this label. If terms are unacceptable, return unopened package to seller for full refund of purchase price. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer and Limitation of Remedies.

### Product Information

QNAP2-treated wood will be protected from infestation of wood destroying organisms including subterranean termites, drywood termites, wood destroying beetles, powderpost beetles, carpenter ants and decay fungi. It may also be used to resist warping, swelling, shrinking, end checking, rot, mold, mildew, and moss.

Solutions of QNAP2 can be used for remedial or preventive treatment of standing wooden poles, piling and other existing structures; and wooden utility and construction products including lumber, end cuts, timber, rail ties, posts, poles, freeway fencing, siding, boats, piers, docks, boxes, roofs, shakes, cedar shake roofs, shingles, porches, steps, fences, rails and beverage cases. QNAP2-treated wood is suitable for ornamental or planting landscape timbers, wooden seedling trays, outdoor décor, flower boxes and window boxes. QNAP2 meets the American Wood Protection Association (AWPA) Standard M4 end cut requirements for exterior and ground contact field treatments.
Wood treated with QNAP2 must not be used where it may come in contact with food, feed or potable water. QNAP2-treated wood is not suitable for garden applications where fruit and or vegetables will be grown. Wood treated with this product shall not be used in the construction of beehives. When field treating, do so in a manner that the product does not drip into sensitive environments. Whenever possible, apply field treatments prior to assembling the structure over the body of water or sensitive environment.

This product will tint the wood and may produce a strong, lingering odor. The color and odor will fade over time.

Application Procedures:
For Exterior Use

QNAP2 is a ready-to-use formula. Agitate well before using. Make sure wood is bare, dry and free of dust, dirt and debris. Make certain all areas are fully treated to get the maximum benefits. Allow at least 1 hour between applications. Effective application rates vary according to severity of conditions to which the treated product is exposed and the wood species to be treated.

Dip, Roller or Brush Application Above Ground Contact: Do not apply with any sprayer or by fine mist. Coverage is dependent upon application method and the refractory nature of the wood being treated. One gallon of QNAP2 will cover approximately 100-300 sq. ft. of surface area. In high hazard areas, two applications may be desirable.

Ground Contact: Treat with QNAP2 to a retention in the wood of 0.04 to 0.06 lbs copper metal/ft² (in accordance with AWPA Standards). Two applications or extended soaking may be desirable to achieve adequate retention.

End Cut Treatments: To satisfy AWPA M4, apply QNAP2 to cuts, holes or injuries.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry (preferably locked) storage area inaccessible to children and pets. Do not freeze. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: Nonrefillable container; do not reuse or refill this container. Triple rinse (or equivalent) container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with solvent and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times, then offer for recycling, if available; or reconditioning, if appropriate; or puncture and dispose of in a sanitary landfill; or by incineration.

WARRANTY DISCLAIMER

Manufacturer warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. To the extent not prohibited by applicable law, MANUFACTURER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

The directions for use of this product are believed to be adequate and must be carefully followed. It is impossible to eliminate all risks associated with use of this product. Lack of performance or other unintended consequences may result because of such factors as use of the product contrary to label instructions, abnormal conditions, the presence of other materials, climatic conditions or the manner of use/application, all of which are beyond the control of the Manufacturer. The buyer/user assumes all such risks.

Limitation of Remedies

To the extent not prohibited by applicable law, the exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability or other legal theories) shall be limited to, at Manufacturer’s election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

To the extent not prohibited by applicable law: a) Manufacturer shall not be liable for losses or damages resulting from handling or use of this product unless Manufacturer is promptly notified of such loss or damage in writing; and b) IN NO CASE SHALL MANUFACTURER BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES OR LOSSES, INCLUDING WITHOUT LIMIT, HEALTH RELATED DAMAGES OR INJURIES.

The terms of this Warranty Disclaimer and Limitation of Remedies cannot be varied by any written or verbal statements or agreements. No employee or sales agent of Manufacturer or the seller is authorized to vary or exceed the terms of this Warranty Disclaimer or Limitation of Remedies in any manner.

It is not intended that this product be used to practice any patent, whether mentioned or not, without procurement of a license, if necessary, from the owner, following investigation by the user.
