Fleas • Ticks • Mosquitoes • Ants • Roaches • Flies • Scorpions • Chiggers • Crickets • Chinch Bugs • Japanese Beetles • No-See-Ums • Gnats • & Repels Venomous Snakes

Safe even when wet. Safe for use on ornamental trees, shrub & flowers.

READY TO USE: Shake well before use. Just connect to hose and spray! No mixing or measuring needed. This product mixes automatically with water as you spray.

Kill and Prevent Fleas, Ticks, Mosquitoes & More *Spray & Play!*

For active pest problems, apply twice in **7-10 days** to break the egg cycle and establish control. For ongoing prevention, apply every **30-45 days**, or as needed. Year-round use enhances results.

HOW TO ATTACH & SPRAY:

1. Make sure control knob is in **OFF** position, then connect to hose.
2. Turn water on at faucet. When you are ready to spray, turn the control knob to the **ON** position. Follow the **HOW TO APPLY** instructions below.
3. To stop spraying, turn control knob to **OFF** position. Turn off water at the faucet. To relieve water pressure, turn the control knob on the sprayer to **WATER** until water slows to a drip. Then disconnect hose.
4. Store unused product for next use, or save empty bottle and **REUSE**.

REUSE THIS BOTTLE | Simply refill the empty container with 8 oz of Wondercide Flea & Tick Control Yard + Landscape Concentrate and fill to top with water. Now, it's ready to use again!

HOW TO APPLY | With your sprayer attached to your hose and water faucet on, begin applying by facing your home and spray the bottom 2 ft. Continue into the yard, spraying any trees as high as possible, and work your way backwards to the property line. Walk at a steady pace and use a sweeping motion, slightly overlapping treated areas. Complete coverage is important, especially in shaded areas. Reapplication after heavy rain may be necessary. For ants, soak mounds and repeat as needed to establish control below ground.

CAUTION | Avoid contact with eyes. In case of eye contact, flush with water for at least 15 minutes. Do not take internally. After use, wash hands with soap & water. Keep out of reach of children. May cause phytotoxic burn to plant life if applied in temperatures over 90 °F / 32 °C or in full sun with high temperatures. Apply at your own risk. Wear eye protection and gloves when handling.

OUR STORY

When you love someone, you do everything in your power to protect them. I thought I was keeping Luna safe by using flea & tick control prescribed by a vet, but when she experienced devastating side effects ranging from skin issues to organ failure, I knew there had to be a better way.

I founded Wondercide to protect pets, people and property without harsh chemicals. Today, our full line of natural products protects families around the world.

COMPLETE SYSTEM FOR NATURAL FLEA & TICK CONTROL |

Use Wondercide Yard + Landscape with Wondercide Pets + Home for total flea and tick control, naturally.

INGREDIENTS | Active: 22.50% Cedar Oil, Inert: 2.50% Ethyl Lactate, 75.00% Water
Contains no pyrethrins or synthetic chemicals.
