FIRST AID
Have the product container or label with you when calling the poison control center or doctor, or going for treatment.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

ENVIRONMENTAL HAZARDS
Commercial and industrial uses:
This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Residential use:
This pesticide is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of pesticide. Do not apply directly to water.

De-activation required during clean up if a spill occurs. De-activation of EnviroSystems BioShield® 75 can be achieved by the addition of anionic surfactant (such as soap, sulfonates, sulfates) in quantity equivalent to that of EnviroSystems BioShield® 75.

IMPORTANT: WARRANTY AND DISCLAIMER INFORMATION
IndusCo, Ltd. warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated in this bulletin when used in accordance with directions under normal conditions of use; but this warranty of fitness for a particular purpose does not extend to the use of this product contrary to bulletin instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the seller, and buyer assumes the risk of any such use.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Harmful if inhaled or absorbed through the skin. Avoid breathing vapors or spray mist. Wear protective eyewear and protective clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using the toilet. Remove contaminated clothing and wash before reuse.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original, tightly closed containers below 30°C (86°F) and above 6°C (32°F) in a secure area inaccessible to children and away from food or feed.

Pesticide Disposal: Commercial / Industrial use: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Residential use: Wastes resulting from the use of this product may be disposed on site.

Container Handling:
Commercial / Industrial use: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Container size 5 gallons or less: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recoup. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Container size of more than 5 gallons: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.

Residential use: Securely wrap original container in several layers of newspaper and discard in trash.

Covered by one or more U.S. Patents: 6,120,587; 6,113,815; 5,954,689; 6,762,172.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wear protective eyewear (goggles or face shield), gloves, and protective clothing when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry. Clean surfaces prior to application.

Commercial and Industrial Applications: The active ingredient in EnviroSystems BioShield® 75 is effective against odor causing bacteria and fungi (mold and mildew), bacteria and fungi (mold and mildew) which cause staining and discoloration, and algae as a static agent. EnviroSystems BioShield® 75 can be used as a final bacteriostatic finish on the following items to impart bacteriostatic/fungistatic (mold and mildew) and algacstatic activity.

Air filters/materials, bed sheets, blankets, bedspreads, buffer pads (abrasive and polishing), carpets and draperies, fire hose fabrics, mattress pads and ticking, men’s underwear and outerwear, outerwear apparel (jackets, sweaters, sweatshirts, coats, raincoats, overcoats, jerseys, ponchos), roofing materials-defined as shingles, roofing granules, wood shakes, felt, stone and synthetic overcoats, sand bags, tents, tarps, sails and ropes, athletic and casual shoes, shower curtains, socks comprised of nylon, nylon, velvet, linen/Lycra, acrylic/polysterene/nylon/Lycra, wool/silk/nylon/Lycra, and wool/acrylic/nylon/Lycra, throw rugs, toilet tank and seat covers, umbrellas, vacuum cleaner bags and filters, women’s hosiery, women’s intimate apparel.

For Pump Spray Application: Use pump sprayer, spray entire area 4’-6” from the surface making sure the surface is completely covered. Apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabrics and carpets by treating and drying a small, concealed area prior to application. One gallon of EnviroSystems BioShield® 75 treats approximately 200 square feet. When treating coarser substrates, more EnviroSystems BioShield® 75 may be required due to absorption. A fan may be used to assist in drying carpeting.

For Commercial Spray Application: For commercial application equipment (i.e. carpet/upholster steamers, rotary jet extraction cleaners, pressure sprayers) apply and then let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. Test for staining and color-fastness of fabrics and carpets by treating and drying a small, concealed area prior to application. One gallon of EnviroSystems BioShield® 75 treats approximately 200 square feet. When treating coarser substrates, more EnviroSystems BioShield® 75 may be required due to absorption. Dry carpet areas and surfaces before re-entry and dry articles before use. A fan may be used to assist in drying carpeting.

For Dipping/Soaking Application: Use appropriate sized wash basin or tub for dipping/soaking the item you are using. Test enough EnviroSystems BioShield® 75 to completely submerge item. Keep item in solution for 3 minutes. Remove item and dry. Test for staining and color-fastness of fabrics by treating and drying a small, concealed area prior to application. Do not reuse solution after dipping/soaking.

The substrate can be dried at room temperatures or at temperatures to a maximum of 160°F (72°C), for example in a clothes dryer. Remove excess liquid before attempting to dry in a clothes dryer. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains, mildew stains and algae stains return.

For Residential Applications: The active ingredient in EnviroSystems BioShield® 75 is effective against odor causing bacteria which cause staining and discoloration, fungi (mold and mildew) and algae as a static agent.

Bed sheets, blankets, bedspreads, curtains, draperies (washable only), underwear, socks, intimate apparel, hosiery, throw rugs, toilet tank covers, shower curtains, shoe insoles, outerwear apparel (jackets, sweaters, sweatshirts, coats, raincoats, overcoats, jerseys, ponchos), polyurethane and cellulose foam for household, industrial, and institutional mops, roofing materials-defined as shingles, roofing granules, wood shakes, felt, stone and synthetic overcoats, sand bags, tents, tarps, sails and ropes, athletic and casual shoes, shoe insoles, shower curtains, socks comprised of nylon, nylon, velvet, linen/Lycra, acrylic/polysterene/nylon/Lycra, wool/silk/nylon/Lycra, and wool/acrylic/nylon/Lycra, throw rugs, toilet tank and seat covers, umbrellas, vacuum cleaner bags and filters, women’s hosiery, women’s intimate apparel.

Do not reuse solution after dipping/soaking. Dry treated articles before use. The substrate can be hang-dried at room temperature or at temperatures to a maximum of 160°F (72°C), for example in a clothes dryer. Remove excess liquid before attempting to dry in a clothes dryer. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains, and mildew stains return.

SPRAY: Clean surface prior to application. Using a trigger pump sprayer or pressure sprayer, spray the entire surface area 4’-6” from the surface making sure the surface is completely covered. Let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. Test staining and color-fastness of fabric by treating and drying a small, concealed area prior to application. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains and mildew stains return.

Air filters for furnaces, air conditioners, air purification systems, automobiles, vacuum cleaner filters, aquariums.

Method of Application: SPRAY: When treating filters, remove filter from the unit. Using a trigger sprayer or pressure sprayer, spray the entire surface area 4’-6” from the surface making sure the surface is completely covered. Apply and then let stand until dry. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains, mildew stains and algae stains return.

Carpetering: Method of Application: SPRAY: Apply to clean carpet surface. Using a trigger sprayer or pressure sprayer, spray the entire surface area 4’-6” from the surface making sure the surface is completely covered. For rotary jet extraction cleaners and carpet steamers, add EnviroSystems BioShield® 75 directly to the cleaning tank, then operate the equipment in accordance with manufacturer’s instructions. Apply and then let stand until dry. Test staining and color-fastness of carpets by treating and drying a small, concealed area prior to application. EnviroSystems BioShield® 75 treats approximately 200 square feet per gallon (50 square feet per quart). When treating coarser substrates (i.e. wool carpeting), more EnviroSystems BioShield® 75 may be required due to absorption. Dry carpet areas and surfaces before re-entry. A fan may be used to assist in drying carpeting. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains, mildew stains and algae stains return.

Tubs, glazed tiles, vanity tops, shower curtains, shower stalls (areas), sinks, washable walls, window sills, cabinets, garage cars, appliances, refrigerators (exterior), fiberglass, formica, glazed porcelain, synthetic marble, plastic, vinyl.

Method of Application: SPRAY: Using a trigger pump sprayer, spray the entire surface area 4’-6” from the surface making sure the surface is completely covered. Let stand until dry or let stand 3 minutes and wipe dry with cloth or sponge. If spotting occurs, wipe with moist cloth or sponge. If necessary, reapply EnviroSystems BioShield® 75 every 3 months or when odor, staining and discoloration due to bacteria, mold stains and mildew stains return.
