This product kills the following organisms in 1 minute on pre-cleaned, hard, non-porous surfaces at room temperature:

- Methicillin-Resistant Staphylococcus aureus (MRSA)
- Extended-Spectrum β-lactamase Escherichia coli (ESBL)
- Staphylococcus aureus
- Enterobacter aerogenes
- Staphylococcus aureus
- Enterobacter cloacae
- Vancomycin-Resistant Enterococcus faecalis (VRE)
- Carbapenem Resistant Escherichia coli
- Vancomycin Intermediate Staphylococcus aureus (VISA)
- Hepatitis B Virus*‡ (HBV)
- Methicillin Resistant Staphylococcus epidermidis (MRSE)
- Herpes Simplex Virus Type 2
- Enterococcus faecium
- Influenza A Virus (H3N2)
- Pseudomonas aeruginosa
- Influenza A Virus (H1N1)
- Escherichia coli
- Human Coronavirus
- Carbapenem Resistant Klebsiella pneumoniae
- Human Immunodeficiency Virus*‡ (HIV-1) associated with AIDS
- Enterococcus faecium ATCC BAA-2108
- Hepatitis C Virus*‡ (HCV)
- Pseudomonas aeruginosa
- Rotavirus
- Acinetobacter baumannii
- Trichophyton interdigitale (ringworm)
- Human Coronavirus

‡ This symbol indicates a 30 second contact time is required to kill this organism.

This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature:

- Mycobacterium bovis
- BCG tuberculosis (TB)

For Use On

This product can be used on the following hard, non-porous surfaces of the following items: acrylic, metals (aluminum, steel, brass, copper, stainless steel, chrome), soldered glass, glass, plastics (polycarbonate, polypropylene, polystyrene and polyvinyl chloride (PVC)), hard, non-porous rubber, acrylic, metals, painted surfaces, ambulance equipment/surfaces and patient care surfaces, anesthesia machines, bed railings, bedside tables, blood pressure devices, cardiac monitors, chest pumps, computer keyboards, computer screens, drug preparation equipment, empty whirlpool tanks, E.R. stretchers, examination equipment, exam rooms, washrooms, hospital equipment, hysteroscopy units, intravenous medicines, intravenous medicines, intravenous stand, intravenous valves, intravenous pumps, intravenous tubing, intravenous tubing, intravenous tubing, intravenous stand, IV bags and IV tubing, IV lines, IV poles, IV stand, IV, laboratory equipment, laboratory equipment, laboratory **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Advisory Statements**

Do not use this product as a baby wipe or to wipe, or on contact lenses. Do not use on clothes, glasses or utensils. Rinse all surfaces which may come in contact with food with clean potable water after using this product. Not recommended for polished wood, or bare wood. Use only small electrical appliances before cleaning or disinfecting with this product.

**Dispensing Directions:**

To start feed, remove cover and discard seal. Pull up a wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Repeat cover. Pull out first wipe and tear off at an angle. Remaining wipes feed automatically, ready for the next use. When not in use, keep center cap closed to prevent evaporation.

**Cleaning, Pre-cleaning and Deodorizing**

Use a fresh wipe to clean surfaces. Repeat as necessary until surfaces are visibly clean. Allow the surface to remain thoroughly wet for 30 seconds. Wipe off or allow to air dry.

This product can also be used to pre-clean all surfaces to be disinfected.

**Disinfection of Pre-Cleaned Non-Critical Medical Devices, Instruments and Implements**

Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain visibly wet for 1 minute. Rinse and reinstate instruments. Wipe dry prior to use.

When critical medical devices are items that come in contact only with intact skin. Note: When used on critical and semi-critical medical devices, this product can only be used for pre-cleaning. Critical and semi-critical devices must be followed by appropriate terminal sterilization/high-level disinfection process.

**Vehicle Disinfection**

Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain visibly wet for 1 minute prior to wiping or allowing surfaces to air dry.

**To Disinfect Hard, Non-porous Surfaces/Articles**

Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain visibly wet for 1 minute prior to wiping or allowing surfaces to air dry.

Note: Disinfected surfaces which may come in contact with food must be rinsed with potable water after cleaning and/or disinfection and before reuse.

This symbol indicates a 2 minute contact time is required to kill TB.

**HBV, HCV and HIV-1 Precautions:** This product kills HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/objects previously seeded with blood/body fluids in health care or other settings in which there is an expected likelihood of soiling of contaminant surfaces/objects with blood/body fluids, and in which the surfaces/objects can be associated with the potential for transmission of HBV, HCV and/or the human immunodeficiency virus (Type 1 HIV-1) associated with AIDS. Special instructions for cleaning against HBV, HCV and HIV-1 of surfaces/objects seeded with blood/body fluids: Personal Protection: Specific barrier protection items to be used when handling items soaked with blood/body fluids are disposable gloves, gowns, masks and eye protection. Cleaning Procedure: Blood and other body fluids must be thoroughly cleaned from surfaces/objects before disinfection. Contact Time: Allow hard, non-porous surfaces to remain wet for 30 seconds to kill HBV, HCV, and HIV-1 prior to wiping or allowing surfaces to air dry.

**Precautionary Statements**

**Harmful if swallowed, inhaled, or absorbed through skin.** Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wear appropriate personal protective equipment based on site work practices. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**First Aid**

If Inhaled:

If person is in fresh air, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. If on Skin: Take off contaminated clothing. Immediately rinse skin with plenty of water for 15-30 minutes. Do not rub.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-535-5053 for emergency medical treatment information.

**Physical or Chemical Hazards**

**EPA REG. NO. 70144-4EPA EST. NO. 570144-4 EPA EST. NO. 12492-WI-002**
This product kills the following organisms in 1 minute on pre-cleaned, hard, non-porous surfaces at room temperature:

- Methicillin-Resistant Staphylococcus aureus (MRSA)
- Extended-Spectrum β-lactamase Escherichia coli (ESBL)
- Staphylococcus aureus
- Enterobacter aerogenes
- Staphylococcus aureus
- Rosenbach
- Enterobacter cloacae
- Vancomycin-Resistant Enterococcus faecalis (VRE)
- Carbapenem Resistant Escherichia coli
- Vancomycin-Resistant Enterococcus faecium (VRE)
- Human Immunodeficiency Virus*‡ (HIV-1) associated with AIDS
- Acinetobacter baumannii
- Herpes Simplex Virus Type 1
- Hepatitis B Virus*‡ (HBV)
- Herpes Simplex Virus Type 2
- Hepatitis C Virus*‡ (HCV)
- Acinetobacter baumannii
- Human Coronavirus
- Multi-Drug Resistant (MDR) Acinetobacter baumannii
- Influenza A Virus (H3N2)
- Carbapenem Resistant K. pneumoniae
- Norovirus
- Bordetella pertussis
- Influenza A Virus (H1N1)
- Trichophyton interdigitale (ringworm)
- Pseudomonas aeruginosa
- Herpes Simplex Virus Type 2 (HSV-2)
- Pseudomonas aeruginosa
- Human Coronavirus
- Rotavirus

‡ This symbol indicates a 30 second contact time is required to kill this organism.

This product kills the following organism in 2 minutes on pre-cleaned, hard, non-porous surfaces at room temperature:

- Mycobacterium bovis BCG tuberculosis (TB)

For Use On

- This product can be used on the following hard, non-porous surfaces of the following items: acrylic, metals (aluminum, copper, stainless steel), ceramic, sealed granite, glass, plastics (polyethylene, polypropylene, polyester, and polyvinyl chloride (PVC)), hard, non-porous rubber, ‘Plexiglas’, vinyl as well as laminated and painted surfaces, ambulance equipment/surfaces and patient care surfaces, anesthesia machines, beds, bedrails, bedside drapes, bloodbank team equipment, busing room fixtures, blood bank equipment surfaces, blood pressure devices, cardiac monitors, chest pumps, synthetic (nylon, polyvinyl chloride) coated mattresses, computer keyboards, computer screens, dish preparation equipment, empty ventilator tanks, ER stretchers, examination equipment, filters, glucometers, ground lenses, hydrotherapy units (amputee), infant bassinets/cradles/baskets, liners/care equipment, instrument reprocessing equipment, infusion pump surfaces, laboratory equipment/surfaces, synthetic mats, synthetic mattress covers, UV light tables, surfaces, oxygen hoods, synthetic patient bed surfaces, physician office surfaces, skin care equipment/surfaces, telemetry equipment. This product can be used in the following institutions: acute care facilities, ambulatory surgical centers, central sterilization processing departments, child care facilities, dialysis centers, endoscopy centers, surgery centers, imaging centers, intensive care units, laboratories, neonatal units, operating rooms/theaters, orthopedic units, patient care areas, pediatrics units, personal care service facilities, pharmacies, physical therapy facilities, plasma pheresis facilities, primary care facilities, school nurse facilities, and areas/facilities concerned with the hazards of cross-contamination from infectious microorganisms.

**NEW**

**Wipes Disinfectant Cleaner**

**Bactericidal / Fungicidal / Virucidal / Tuberculocidal**

- 1 Minute* Kill Time
- Powerful scrubbing wipe that is gentle on surfaces
- Kills ESKAPE and ESKAPE MDRO Organisms

**KEEP OUT OF REACH OF CHILDREN**

CAUTION

Net Contents: 160 Wipes 6 x 6.75 inches / Net Weight: 1 lb 9.8 oz. (730.39 g)

ORDER NO.: M60034
**DIRECTIONS FOR USE**

**Infectious Materials Disposal:** Cleaning materials used that may contain blood/body fluids must be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal.

**Cleaning materials used that may contain blood/body fluids must be autoclaved and/or disposed of in accordance with local regulations for infectious materials disposal.**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Advisory Statements**

**Hazards to Humans and Domestic Animals**

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact skin. This applies specifically to all forms of medical devices, instruments, and tools.

**WARNING:** This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or contacts intact skin. This applies specifically to all forms of medical devices, instruments, and tools.

**Use as a pre-cleaner:** This product can be used to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain wet for 1 minute. Allow surfaces to dry.

**To Disinfect Hard, Non-porous Surfaces/Articles**

Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain wet for 1 minute prior to wiping or allowing surfaces to air dry.

**Personal Protection:** When working with this product, it is recommended to wear a full chemical protective suit, disposable gloves, and eye protection.

**Special instructions for cleaning against HBV, HCV and HIV-1 of surfaces/objects soiled with blood/body fluids:** Special instructions for cleaning against HBV, HCV and HIV-1 of surfaces/objects soiled with blood/body fluids:

1. **Cleaning Procedure:** Thoroughly clean and disinfec hard, non-porous surfaces with the product and before reusing.
2. **Contact Time:** Allow hard, non-porous surfaces to remain wet for 30 seconds to kill HBV, HCV, and HIV-1 prior to wiping or allowing surfaces to air dry.

**Storage and Disposal**

**Pesticide Storage:** Store in original container in a cool, well ventilated, locked storage area. Tightly close lid between uses to retain moisture.

**Pesticide Disposal:** Container Handling:

- Do not contaminate water, food or feed by storage or disposal.
- Non-refillable container. Do not reuse or refill this container. Discard container and put in trash or offer for recycling if available.

**Dispensing Directions:**

- STORAGE AND DISPOSAL
- To start feed, remove cap and discard seal. From the center of the wipe roll, pull up a wipe corner, twist it into a point and thread it through the hole located on the container cover. Pull through about one inch. Replace cover. Pull out first wipe and tear off at an angle. Remaining wipes feed automatically, ready for the next use. When not in use, keep center cap closed to prevent evaporation.

**Disinfection of Pre-Cleaned Non-Critical Medical Devices, Instruments and Implements**

Use a fresh wipe to thoroughly wet pre-cleaned hard, non-porous surfaces. Allow surfaces to remain visibly wet for 1 minute at room temperature (68°F/20°C). Remove and rinse instruments. Wipe dry prior to use.

**Hazards to Humans and Domestic Animals**

- Harmful if swallowed, inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and eating, drinking, using the toilet.
- Avoid contact with eyes, skin or clothing. Wear appropriate personal protective equipment, including gloves, masks and eye coverings.

**First Aid**

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

**If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**Physical or Chemical Hazards**

**Cross-Contamination:** Do not use on areas where food will be served.

**Chemical:** Do not use on areas where food will be served.

**Carcinogenicity:** Not evaluated.

**Reactivity:** Not evaluated.

**Precautionary Statements**

**Physical or Chemical Hazards**

- Do not use on areas where food will be served.
- Do not use on areas where food will be served.
- Not evaluated.
