USE ONLY ON DOGS AND PUPPIES WEIGHING 23-44 lbs. AND 8 WEEKS OR OLDER

Vetality™ Firstect™ Plus For Dogs kills larva, nymph and adult ticks that may transmit Lyme disease. Aids in control of sarcoptic mange mite infestations. Kills all stages of ticks, including those that may transmit Lyme disease. Kills fleas, flea eggs, and flea larvae on your dog for up to three months. For best control of ticks, apply once every month. For best control of chewing lice, apply once every month. For best control of fleas, apply monthly.

FREQUENCY OF APPLICATION

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal. Store unused product in original container only, out of reach of children and animals. Place in trash or offer for recycling if available. If empty: refill this container. Nonrefillable container. Do not reuse or refill this container. Do not reapply Vetality™ Firstect™ Plus For Dogs to the same dog for at least 28 days.

USES

For dogs and puppies (8 weeks or older) as follows.

To kill adult fleas, flea eggs and larvae, chewing lice, all stages of ticks

To kill sarcoptic mange mites

To kill brown dog ticks, American dog ticks, Lone Star ticks, ticks (which may carry Lyme disease), and to aid in control of sarcoptic mange mite infestations.

For best control of brown dog ticks (Amblyomma americanum), American dog ticks (Dermacentor andersoni), and Lone Star ticks (Amblyomma americanum), apply Vetality™ Firstect™ Plus For Dogs once a month.

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER: Have the product container or label with you when calling a poison control center, doctor or going for treatment. You may contact us at 1-800-775-9416 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

HAZARDS TO HUMANS. CAUTION. Harmful if swallowed. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

HAZARDS TO DOMESTIC ANIMALS
For external use only. FOR USE ON DOGS AND PUPPIES ONLY. Do not use on puppies under 23 pounds or on puppies under 8 weeks of age. DO NOT USE ON CATS OR OTHER ANIMALS. Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian. Individual sensitivities, while rare, may occur after using ANY pesticide product. Dogs may experience some temporary irritation at the site of product application. If signs persist, or become more severe within a few days of application, consult a veterinarian. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating treatment. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated or aged dogs. Call 1-800-775-9416 for 24-hour assistance.

SIDE EFFECTS
Monitor your dog after application. Side effects may include skin irritation such as redness, scratching or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or us at 1-800-775-9416.

To kill adult fleas, flea eggs and larvae, chewing lice, all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks (which may carry Lyme disease), and to aid in control of sarcoptic mange mites, apply this product ONLY to dogs and puppies (8 weeks or older) as follows.
HOW TO APPLY:
To apply Vetality™ Firstect™ Plus For Dogs: Place applicator tip through dog’s hair to the skin level between the shoulder blades. Squeeze applicator, applying entire contents in a single spot to the dog’s skin. Avoid superficial application to the dog’s hair. Allow area to dry before touching treated area. Only one applicator per treatment is needed.

FREQUENCY OF APPLICATION
Fleas: When used monthly, Vetality™ Firstect™ Plus For Dogs breaks the flea life cycle and controls fleas, flea eggs, and flea larvae on your dog for up to three months. Although Vetality™ Firstect™ Plus For Dogs can control fleas for up to three months, if there is a high risk of re-inestation of fleas on your dog or if the dog has fleas which may cause flea allergy dermatitis, apply this product once a month.

Ticks: Vetality™ Firstect™ Plus For Dogs kills larva, nymph and adult ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, ehrlichiosis, babesiosis, and anaplasmosis for at least one month. For best control of ticks, apply once every month.

Chewing Lice: Vetality™ Firstect™ Plus For Dogs kills chewing lice for at least one month. For best control of chewing lice, apply once every month.

Sarcoptic Mites: Applied once a month, Vetality™ Firstect™ Plus For Dogs aids in the control of sarcoptic mange mite infestations. Do not reapply Vetality™ Firstect™ Plus For Dogs for 30 days.
