DIRECTIONS FOR USING THE MAXFORCE FLEET™ GEL

**FOR INDOOR USE:**
- Visually inspect for ants and place bait in areas of known or potential ant activity. Avoid using treated areas for at least 24 hours to allow access to foraging ants.
- Place all bait into stations and bait dishes, letting ants find the product. For better control, repeat bait stations until ants stop coming in.
- For outdoor use, bait stations can be placed in areas where ants are known to be active or where they are likely to enter the structure.

**OUTDOOR USE:**
- Keep bait stations away from children and pets.
- Avoid placing bait stations near water, food, or feed sources.
- Place bait stations in areas where ants are likely to enter the structure, such as entrance points or areas near where ants are seen foraging.

**DOMESTIC ANIMALS**
- Keep gel away from pets and livestock.
- Do not use this product in or on electrical equipment where pets may come in contact with the gel.

**APPLICATIONS IN FOOD/FEED HANDLING ESTABLISHMENTS:**
- Avoid using this product in or on electrical equipment where ants may enter the establishment.
- Place bait stations near ant trails, nest sites, or areas where ants are foraging and entering the structure.
- Use bait stations in areas such as under and behind kitchen appliances, along walls and windows, cabinets, sinks, stoves, and other places where ants may enter the establishment.

**CLEANUP:**
- Do not contaminate water, food, or feed by storage or disposal.
- Dispose of used bait stations and excess gel in the trash.
