**PRODUCT FEATURES AND BENEFITS**

Zoono Microbe Shield imparts durable biostatic activity to the surface of a wide variety of substrates.

- **Antimicrobial surface protectant against discoloration or staining**
- **Cleans and protects surfaces from odor causing bacteria and discoloration or staining**
- **Increased efficiency - through proper application, durable bacteriostatic, fungistatic and algistatic surfaces can be attained as a static agent.**
- **Cannot be used as a final bacteriostatic finish on the following items to avoid deactivation:**
  - Natural stone: Marble, Limestone, Granite, Travertine, Sandstone, Slate, and Sandstone
  - Textiles: Carpets, Fabrics, Upholstery
  - Outdoor surfaces: Masonry, Concrete, Brick, Stone, Sealed Fiberglass, Vinyl, Porcelain, Wood and Glass Fixtures,
  - Walls and Wall Coverings, Ceramic Tile, Concrete, Chrome, Stainless Steel, Aluminum, and Steel.

**DIRECTIONS FOR USE**

**FOR INDOOR/INDUSTRIAL/RESIDENTIAL/COMMERCIAL USE**

1. **Prepare Surface:**
   - Use an anionic surfactant or detergent (such as soap, sulfones, or sulfates) to prepare the surface to be treated. Rinse. Let dry.

2. **Apply Solution:**
   - Use an atomizing sprayer to apply the solution to a maximum of 200 ft² (20 m²) per sprayer fill.
   - Apply the solution in 5 or more applications until the treated area is completely covered. One to two sprayers per application may be required.

3. **Let Dry:**
   - Let the treated surface dry to the touch, then let it dry for at least 2 hours or until the treated surface is dry to the touch. Do not reuse solution after application. Zoono Microbe Shield will have a minimum shelf life of 12 months from date of shipment.

**FOR COMMERCIAL SPRAY APPLICATION:**

1. **Get Ready:**
   - Shake product container for 10 seconds. Drain for 10 seconds after the flow begins. Recap. Let stand for 10 minutes.

2. **Prepare Equipment:**
   - Equipment must be capable of delivering a spray pattern of 100-500 square feet. Zoono Microbe Shield may be required for abatement.

3. **Apply Solution:**
   - Use appropriate atomization size for the sprayer. Use the solution to treat the entire surface to be treated. Use an atomizing sprayer to apply the solution to a maximum of 200 ft² (20 m²) per sprayer fill.

**ENVIRONMENTAL HAZARDS:**

- **Do not contaminate water, food, or feed by storage or disposal.**
- **Storage:** Store in original, tightly closed container in an area inaccessible to children or persons unfamiliar with this product. Store tightly closed, unopened containers at least 6 months (179°F). Zoono Microbe Shield has a minimum shelf life of 12 months from date of shipment.

**STORAGE AND DISPOSAL**

- Store in original, tightly closed container in a secure area inaccessible to children or persons unfamiliar with this product. Do not contaminate water, food, or feed by storage or disposal. **Zoono Microbe Shield has a minimum shelf life of 12 months from date of shipment.**
