**DuPont™ Method® 240SL**

**Soluble Liquid**

**For Non-Crop Use**

**Active Ingredient**

Potassium salt of aminocyclopyrachlor

Potassium salt of 6-amino-5-chloro-2-cyclopropyl-4-pyrimidinecarboxylic acid*  

**Other Ingredients**

Potassium salt of aminocyclopyrachlor

**Acid Equivalent:** 6-Amino-5-chloro-2-cyclopropyl-4-pyrimidinecarboxylic acid - 2 pounds acid per gallon or 21.2%

**Other Ingredients**

Potassium salt of aminocyclopyrachlor

**Active Ingredient By Weight**

For Non-Crop Use

**Soluble Liquid**

**Applicators:** After the product has been diluted in accordance with label directions for use, shirt, pants, socks, and shoes are sufficient Personal Protective Equipment (PPE).

**Engineering Control Statement:** When applicators use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

**Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.**

**Cartridges and other liquid,** **powder,** **and** **granules:**

**Mixers and loaders must wear:** Long-sleeved shirt and long pants.

Applicators: After the product has been diluted in accordance with label directions for use, shirt, pants, socks, and shoes are sufficient Personal Protective Equipment (PPE).

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Engineering Control Statement:** When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

**First Aid**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin: Wash skin thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

If swallowed: Do not induce vomiting unless under medical supervision. Give small amounts of water. Call a poison control center or doctor for treatment advice.

**Waste from this product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having high potential for reaching surface water via runoff for several months after application.** A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of aminocyclopyrachlor from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

**NOTICE TO BUYER:** Purchase of this material does not confer any rights under patents of countries outside of the United States.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage and disposal.

**PESTICIDE STORAGE:** Store product in original container only. Store in a cool, dry place.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

**CONSUMER HANDLING:** Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Flip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two more times. Then, for Plastic Containers, offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn, unless allowed by state and local ordinances. For Metal Containers, offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**NOTICE TO BUYER:** Purchase of this material does not confer any rights under patents of countries outside of the United States.

**KEEP OUT OF REACH OF CHILDREN CAUTION**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Causes moderate eye irritation. Avoid contact with eyes or clothing.

**Personal Protective Equipment (PPE)**

MIXERS AND LOADERS:

- Long-sleeved shirt and long pants.
- Shoes plus socks.
- Long-sleeved shirt and long pants.
- Loimpants, socks, and shoes are sufficient Personal Protective Equipment (PPE).
- Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.
- Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**USER SAFETY RECOMMENDATIONS**

**FIRST AID**

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin: Wash skin thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

If swallowed: Do not induce vomiting unless under medical supervision. Give small amounts of water. Call a poison control center or doctor for treatment advice.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

**Surface Water Advisory**

This product may impact surface water quality due to runoff of rain water. This is especially true for poorly draining soils and soils with shallow ground water. This product is classified as having high potential for reaching surface water via runoff for several months after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential loading of aminocyclopyrachlor from runoff water and sediment. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

**NOTICE TO BUYER:** Purchase of this material does not confer any rights under patents of countries outside of the United States.

**Nonrefillable Container**

**Produced for:** E. I. du Pont de Nemours and Company, 1007 Market Street, Wilmington, DE 19898 U.S.A. Made in U.S.A.
DuPont Method® 240SL
herbicide

**ACTIVE INGREDIENT**
2,4-D

**OUTDOOR USES**
- Control of broadleaf weeds and woody vegetation in a variety of settings.
- Post-emergence control of broadleaf weeds, including certain woody species.
- Pre-emergence and post-emergence control of annual and perennial weeds.

**SOLVENT**
Potassium salt of am inocyclopyrachlor

**PACKAGING**
- Available in 12 oz., 1 gal., and 27 gal. containers.

**SAFETY INFORMATION**
- Read and understand the label before using.
- Keep out of the reach of children.
- Do not eat, drink, or smoke when using.

**APPLICATION**
- Apply according to the label directions.
- For best results, use the correct drift control system and air volume.

**STORAGE**
- Store in a cool, dry place.
- Do not freeze or expose to prolonged sunlight.

**DISPOSAL**
- Disposal methods must be in accordance with state and federal regulations.

**RELEVANT STANDARDS**
- Federal: Animal Carcinogen, Non-oil (60 FR 45173, August 4, 1995).
- State: May be used in Oregon and Washington, except in urban and developed areas.

**ENVIRONMENTAL HAZARDS**
- Use caution when applying near lakes, streams, and irrigation systems.

**DIRECTIONS FOR USE**
- Read and understand the label before using.
- Determine the appropriate drift control system and air volume.

**PRODUCT INFORMATION**
- It is a water dispersible granule (WDG) formulation.
- It may be used in a variety of outdoor applications.

**APPLICATION INFORMATION**
- For aerial applications near susceptible crops or other desirable plants, use a drift control system and air volume that will not allow the spray to come into contact with the susceptible crop.
- For ground applications, use the appropriate drift control system and air volume.

**GROUNDS FOR USE**
- Post-emergence control of broadleaf weeds, including certain woody species.
- Control of weeds in rock gardens, greenhouses, and ornamental plantings.

**ADJACENTS**
- Methylated Seed Oils and Vegetable Oils.
- A methylated oil (MD) or vegetable oil is added to the label.

**TANK MIXES**
- DuPont® 240SL herbicide may be tank mixed with other herbicides that have tank mixing restrictions as specified on this product label.

**FIELD BIOASSAY**
- To conduct a field bioassay, grow mature to full-sized strips of the crop you plan to apply to with the treatment you will be using, including water (as a control) and without water (as a control).

**AJAR APPLICATIONS**
- Use low and high volume ground spray equipment.

**GROUND APPLICATIONS**
- Use the appropriate drift control system and air volume.

**INTEGRATED PEST MANAGEMENT**
- Maintain natural control methods.

**ADDITIONAL INFORMATION**
-温和な環境を実現するためには、自然の調和を維持することは重要です。無駄のない環境を実現するためには、自然の調和を維持することは重要です。
SPRAY EQUIPMENT

Be sure the sprayer is calibrated before use. Use a sufficient volume of water per application to ensure complete coverage of the target area or weed. The selected sprayer should be equipped with an agitator system to help keep DuPont™ METHOXY 246SL suspended in the spray tank.

Notes:
• Boom Length - The boom length should not exceed 3/4 of the wing span above for instructions. If no instructions are given, dispose of the rinsate on site, or in a sanitary landfill, or by incineration. Do not burn, unless under permits only.

For Metal Containers, offer for recycling if available or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or by incineration. Do not burn, unless under permits only.

For Water Containers, all cleanout procedures for each product should be examined considering all these factors when making application decisions.
