**INNOSEPC**

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Personal Protective Equipment (PPE)**

Mixers, loaders, applicators and other handlers must wear: Covenalls over short-sleeved shirt and short pants, socks and chemical-resistant footwear, goggles and face shield, and chemical-resistant gloves made of barrier laminate, butyl rubber, neoprene rubber, polyvinyl chloride or Viton.

**User Safety Recommendations**

Wash hands before, eating, drinking, chewing gum, using tobacco, or using the toilet.

Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

**FOR USE IN HYDROCARBON PRESERVATION**

To control the growth of problem microorganisms associated with the fuel.

In General Use: Add Predator™ 6000 to storage tanks or fuel tanks for control of microbial growth in diesel oil, fuel oil, gasoline, or kerosene. Treatment may be performed by slug dosage or by intermittent metering to maintain a concentration of 135-1000 ppm of Predator™ 6000.

For Storage Above Water: Add 1 gallon of Predator™ 6000 to each 1000 gallons of water in the bulk storage system to achieve a concentration of approximately 1000 ppm. To facilitate mixing, dissolve each gallon of Predator™ 6000 in 100 gallons of water and add this solution directly to the water phase in the tank with minimal agitation.

For Storage in Tanks Without Intentional Water: Add 0.125-1 gallon of Predator™ 6000 directly to each 1000 gallons of hydrocarbon in the system to obtain a concentration of approximately 135-1000 ppm.

In a Fuel Treatment Pre-Mix: Predator™ 6000 may be mixed with other fuel additive for addition to fuel. The end user must add sufficient Predator™ 6000 to the pre-mix to provide 135-1000 ppm of Predator™ 6000 in the treated fuel.

**Product Information:** 800-441-9547

EPA Reg. No: 464-0949-06827  EPA Est. No. 90928-TX-3

Last Revision: 8/16

This diesel fuel additive complies with the Federal low sulfur content requirements for use in diesel motor vehicles and nonroad engines.

**Net Contents:** 9.16 lbs. (4.16 kgs.)

**Lot:**

**Notice:** Follow the label exactly. Failure to follow the chemical description as written on this label and reproduced on the product label may result in damage to the product. The operator is responsible for the product used in accordance with this label. This product is not a pesticide. This product is not for sale to private individuals. This product is for Professional and Commercial Use Only.

**Active Ingredient(s):**

Hydrocarbons (5% by wt)

**Inert Ingredients**

- Butyl Alcohol 0.25% by wt
- Butyl Carbitol 0.25% by wt
- Propylene Glycol 0.25% by wt
- Toluole 0.25% by wt
- Ethyl Alcohol 0.25% by wt
- Propylene Glycol Monobutyl Ether 0.25% by wt
- Butyl Alcohol 0.25% by wt
- Butyl Carbitol 0.25% by wt
- Propylene Glycol 0.25% by wt
- Toluole 0.25% by wt
- Ethyl Alcohol 0.25% by wt
- Propylene Glycol Monobutyl Ether 0.25% by wt

**HOT LINE NUMBER**

**FIRST AID**

**IF IN EYES:**

- Hold eye open and rinse slowly and gently with water for 30 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

**IF SWALLOWED:**

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment.

**IF INHALED:**

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment.

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans and Domestic Animals**

DANGER: Corrosive. Causes irreversible eye damage. Harmful if swallowed. Harmful if absorbed through the skin. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic skin reactions in some individuals.

Do not get in eyes, on skin, or on clothing. Causes skin sensitization. Wear goggles or face shield and rubber gloves when handling. Wear long sleeve shirt, long pants, shoes, socks and chemical resistant gloves. Avoid breathing vapor or mist. Avoid contamination of food. Do not lake internally. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewage systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL**

**Pesticide Storage:** Do not contaminate water, food or feed by storage and disposal.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinse is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:**

Nonrefillable Container: Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.
